

Our Fees - Your Costs

The approach we take at Next Generation Fertility is to only charge you for the services you receive, rather than an all-inclusive fee that includes items that may not be required.

Our policy is to:

- Fully explain our costs before treatment commences
- Inform you of costs for your proposed treatment program
- Provide advice in obtaining your full Medicare rebate, Medicare Safety Net entitlements and Health Fund rebates.

| Treatment | Our Fee Initial Payment | Medicare Coverage | Actual Out of Pocket Costs* |
|--|--|----------------------|--|
| Assisted Insemination (AI) (Also called Intra-uterine Insemination) | 1150 | YES | 230 |

| Embryo Freezing and Storage | 225 initial 6 months then 125 each 6 months | NO | 225 initial 6 months then 125 each 6 months |
| Sperm Freezing and Storage | 225 initial 6 months then 125 each 6 months | NO | 225 initial 6 months then 125 each 6 months |
| Frozen Embryo Cycle+ | 1710 | YES | 342 |
| Surgical Sperm Collection (SSC) | 850 | YES | 850 or less |
| Semen Preparation with SSC | 500 | YES | 100 |
| Pre-Implantation Genetic Diagnosis (PGD) | 3500 | NO | 3500 |

Prices Effective 1/9/09

The Planning and Management fee does not include visits to the day surgery, anaesthetist fees, egg collection, embryo transfer or additional drugs not covered by the HIC. * Assumes Medicare Safety Net rebate of 80% for out-of-pocket expenses. + If clinically required, there is no additional fee for extended culturing to the blastocyst stage.

Your day surgery visit required for egg collection and surgical sperm collection involves a separate cost that may be covered by your private health insurance, you should contact your fund for details.

Should your treatment cycle be cancelled for personal or medical reasons, a partial refund or credit for future attempts will be made. The amount refunded or credited will depend on what stage of your program the cycle was cancelled.
