\$29.95

# Filter Service

\$99\*

# Sand Change

(Including sand)

\$199

## Have your pool looking like this all year round

Your pool is in view all year round – not just in summer when you're swimming in it. We have the knowledge and skills to help you keep it looking great all through winter.

We'll vacuum it, prevent your pool equipment from deteriorating, and use only the chemicals your pool needs – usually much less in winter than in summer.

Of course, you're always welcome to "come in and test the water" at our store – all year round. And while you're here, ask us about extending your swimming season with a pool blanket or gas, electric or solar pool heating!

Lyn Abson, Swimart Penrith
