The SCT Livewire Handheld Flash Programmer is also available for Ford European vehicles.

SCT X3 Ford Power Flash

Unlocking the true power potential of your AU, BA, BF & FG Falcon & Territory, is now literally the press of a button, utilising the SCT X3 Power Flash Device.

The X3 Power Flash can store up to 3 tune files, which can be custom tuned by Fisher's Custom Tuning Expert.

Following a very simple loading procedure, select your Fisher Custom Program and within a matter of minutes your Factory Program is stored safely within the SCT unit, replaced by your chosen Custom Program.

SCT's Power Flash Device can instantly add more power and more torque. Your original factory tune is designed to run rich, so using the SCT system even increases your vehicle's fuel economy.

There is no limit to the amount of times you can switch between your Fisher Performance Custom Tunes and the original factory tune.

The NEW X3 Power Flash even comes with user adjustable features and on-device high speed data logging and monitoring.

Now you can data log all of your vehicles PCM parameters and view them on our Windows based computer using SCT's Live Link Software.

For the optimum in performance, we highly recommend having your vehicle custom tuned, to gain the best power from your vehicle.....
