ABOUT US

With a history of bringing automotive servicing to you for over 25 years, Lube Mobile has grown into the most trusted mobile repairer in Australia. In automotive terms, we do it all - from the simplest service to the most complex repair. And we back our parts and workmanship with a 12-month / 20,000km nationwide warranty.

We offer fixed-price servicing and for all our other work we keep you in control with a written estimate before we start the job.

Our technicians are employees, not contractors. That means we can maintain a consistently high standard, as well as offer a wide range of in-house expertise.

Performing the work at your home or office means you don't have to worry about waiting around, or deal with the hassle of dropping the car off to a workshop.

Our fully qualified technicians come to you 6 days a week to service and repair all makes and models including 4WD's. We are equipped to service new cars as well as diagnose and repair the latest Fuel injection and Engine Management Systems.

We minimise your down time by maximising our response time to you. You're welcome to watch the work being performed, and you get the peace of mind that comes with talking to the technician actually repairing your car.

LOG BOOK SERVICING AND NEW CAR OWNERS

Lube Mobile services new cars too. Our skilled technicians are completely conversant with, and equipped for, the servicing demands of modern vehicles. We can service your new vehicle according to the manufacturer's servicing schedule, and stamp your log book as an official record of the service taking place.

A growing number of new-vehicle owners are discovering that Lube Mobile is a cost-effective and ultra-convenient log book servicing alternative - even if the vehicle is under warranty.

New-car owners

If you're sick of dropping your new car at the dealership for a scheduled service, at a time that doesn't really suit you, experience the Lube Mobile difference.

We perform the scheduled services as specified by the manufacturer and stamp your log book so your service history remains complete.

Our 12-month / 20,000km warranty covers all the work we do, as well as any unlikely defects arising from that work. Your statutory new-car warranty will be unaffected – and your car will be serviced without the waiting, the dropping-off and picking-up hassles, quickly, efficiently and cost-effectively.

Lube Mobile is the smart alternative for new-car servicing.
