

Get moving

Need to move? Tired, Stressed!

Do you want to know the cost before you move?

If you recognise any of these symptoms, Reliable Moves has all the answers for you.

They are a locally owned and operated family business.

Peter and Melissa Graham have been servicing the Beaudesert Shire and beyond for the past 15 years.

They are different to most removal companies.

No hourly rates or travel charges, just a fixed price quotation.

"Every job is different, and every customer deserves to have their requirements met," Peter said.

"We go out to the customer's home and provide an obligation-

free quote, this helps prepare everyone for the big day and reduces the stress level.

"We take all the guesswork out and provide the most efficient and cost effective solution to our client's individual needs.

"We supply a fixed price quotation so they will know the cost before they move.

"Finalists in the Business Achiever awards last year and in business for 15 years proves us to be leaders in our field.

"We can offer all facets of removals and a solution for storage, long or short term in a very economical way.

"We have a fleet of varying size vehicles and a team of removalists to cater to any size job big or small.

"We supply a team from three to six men based on the size, access, weather and specific needs of the job.

No job is too big or too small for the Reliable Moves team.

"From a loft apartment to a 10 bedroom home or an office relocation, we have the vehicle and the know-how to suit.

"We can also handle specialty items like spas, pool tables, greenhouses and more. Moving pot plants is also a part of our service.

"We also have a full range of removal merchandise, cartons, tape and paper and robes for your

hanging clothes. We provide additional services if required such as carpet cleaning, house cleaning, yard tidy ups and a handyman, making us your one stop shop for moving.

"For those who don't want to lift a finger, we also offer a full prepack and unpack service. Old fashioned service is not a thing of the past at Reliable Moves.
