

KITCHENS

A great kitchen will change how you feel about your home

Spinners will make your dream kitchen come true!

An inspired kitchen design created especially for you — along with great workmanship, solid construction and superb finish — that's the Spinners promise to you.

Spinners, a good choice for your kitchen renovation

To help you express your style and deliver a practical and inspiring kitchen that will be the heart of your home, Spinners brings you a unique combination of traditional skills and strict attention to detail based on a foundation of exceptional skills in architecture and design.

Innovation and design

We know kitchens. And creating a kitchen that suits your needs is our number one priority. Space, functionality, budget, lifestyle and your own personality play an important part when designing your kitchen. Our experienced Spinners team can create a kitchen that is innovative and most importantly right for you.

Quality products and materials

Sometimes it's hard to choose what products to use when planning your

new kitchen. Spinners use the best materials for your budget. Your Spinners kitchens will be built to last. From cabinets to hinges and everything in between.

How we work with you

The Spinners team is there to discuss your needs in detail and really listen. The initial meeting may include your designer and the licensed builder who will oversee your project. The meeting allows you to detail your ideas and get a full understanding of your options, including lighting, flooring and whether to think about moving walls and windows.

Renovating your kitchen needn't cost you the earth. Through innovative uses of space and a focus on the things that make a real difference, Spinners will ensure you get the best result for the budget you have.

...a unique combination of traditional skills, attention to detail and design...

BUILDING SERVICES

We will help bring your design to life

The process of careful design and the selection of complimentary materials is key to a great kitchen. It must look good and fit the style of the home, but it must also fulfil the changing needs of those who are going to use it. At Spinners we understand that good designs can come together quickly, but more often than not it is an iterative process with design, colour and material selection coming together steadily.

We want you to be completely happy with your new kitchen

Your Spinners designer and your builder will be with you from start to finish ensuring your new kitchen is exactly what you want. Feel free to call on them for assistance and advice at any time, for instance with colour schemes, accessories and product selection. They are there to offer suggestions and advice based on solid experience.

I love the consultative, no-pressure design process. Spinners stands above many other Kitchen supply and installation companies. Thanks for a job well done. - Heather Pugh
