

Welcome to Nova Portable Buildings, for all your portable needs.

Here at Nova Portable Buildings we are dedicated to providing customer service above and beyond your typical portable hire company. We realise that not everyone knows the ins-and-outs of our business and product so we aim to make the process of selecting and contracting our portables as easy as possible.

We service all areas of Melbourne and surrounding suburbs, and can guarantee to build for long term contracts. Custom build designs are also available upon request, so if there is something specific you need we're more than happy to discuss the options.

We always stock a wide range of portable units and site vaults, whilst we are constantly replenishing stock by building new units on site at our factory outlet.

For more information on our product, please visit the rest of this site, or to talk to one of our experienced staff, contact Nova Portables on 1300 367 511.
