To whom it may concern,

Re: Kelly Wallace- First Class Accounts

Kelly came to our organization at a difficult time when our Business Manager was leaving to take up another position and we had yet to appoint our current manager. Kelly had to take on the total responsibility for our bookkeeping and account with minimum orientation and without ongoing assistance from a Manager.

She handled the situation well and has since that time displayed an assiduity in bookkeeping and account duties. Kelly continues to assist us with specialized bookkeeping duties following the appointment of the new Business Manager.

Kelly is honest, reliable and friendly and I recommend her services to other small businesses that need assistance with emergency or ongoing bookkeeping and accounts services.

Sincerely,

Shay Green

Director
