Custom made Hammertime kitchens are more cost effective than flat-packs from hardware and furniture stores!

Recent price comparison's between Hammertime Kitchens & Large retail flat pack stores where quite surprising. The pricing was in favour of Hammertime, which is astounding considering all hardware used at Hammertime is Blum, touted as far superior product than there competitors. In most cases, Hammertime Kitchens can install a custom built kitchen to your room and still be a cheaper option than you picking up a flat pack kitchen from the chain stores.
