Who is Clue?

We help individuals and businesses learn new/change their existing behaviours and unconscious patterns of thought to achieve the results they desire.

Utilising innovative models of thinking and behaviour we help our clients gain an advantage and deliver incredible yet consistent results. This is achieved through training, coaching and modelling excellence (Neuro-Linguistic Programming, NLP). When an individual or a company operates utilising these superior patterns, superior results are the outcome.

The attitude we embody when working with our clients in creating their desired results is ‘when’ rather than ‘if’. We operate according to the idea “anything is possible and can be done”.

Our trainers and coaches represent the finest quality in the world, as do the models of excellence which we have developed, researched and designed.

In short, we are an excellent company who do excellent things for people!
"Like the creative composer, some people are more gifted at living than others. They do have an effect on those around them, but the process stops there because there is no way of describing in technical terms just what it is they do, most of which is out of awareness.

Some time in the future, a long, long time from now when culture is more completely explored, there will be the equivalent of musical scores that can be learned, each for a different type of man or woman in different types of jobs or relationships, for time, space, work, and play.

We see people who are successful and happy today who have jobs which are rewarding and productive. What are the sets, isolates, and patterns that differentiate their lives from the less fortunate?

We need to have a means for making life a little less haphazard and more enjoyable.”

Edward T. Hall
- The Silent Language

With Clue, this future is now.
“Coaching now is part of standard leadership development training for elite executives and talented up-and-comers at IBM, Motorola, JP Morgan, and Hewlett Packard. These companies are discreetly giving their best prospects what star athletes have long had: a trusted advisor to help reach their goals.”

Business Success

Achieve a competitive advantage. Success leaves clues. Results are replicable.

At Clue we use innovative models of excellence. We observe and map the successful processes that underlie exceptional performers.

In other words, we find the difference that makes a difference to you and your company.

We understand that every business is unique, therefore we gather information about your specific requirements and design a program tailored to meet your needs. We work with you, using a combination of one on one coaching and/or group training to achieve exceptional results.

We have discovered the successful patterns of people within flourishing companies, patterns that can solve any problems and give your business a competitive advantage. Once these patterns are mapped over to a company, success is a matter of ‘when’ not ‘if.’
At Clue we specialise in:

- The modelling of excellence (NLP).
- Identifying how individuals and businesses achieve outstanding results.
- The transfer of key skills and information.
- Improving performance and effectiveness.
- Making changes in thinking and behaviour.
- Training and coaching.

At Clue our underlying attitude is “whatever it takes to achieve the desired outcome in the most efficient and enjoyable way possible.”

- Would you like to run your company more successfully and efficiently?
- Are there problems either specific or underfined that once solved, will improve your profits, functioning and overall experience?
- Would you like to increase the bottom line of your company and enjoy more time and money?
- Do you already run an efficient, honed company and want to increase your productivity through new ways of functioning on an individual and company level?
- Do you want a competitive advantage?
Paradigm shifts and improved behavioural skill sets will lead to an increase in productivity and profits. With skilled coaching the ‘bottom line’ can move upwards significantly. The following are some of the benefits and areas of focus for our coaching programs which lead to improvement in many areas of business:

- Improved ability to manage & communicate with others

“All men dream, but not equally. Those who dream by night, in the dusty recesses of their minds, wake to find it was all vanity. But the dreamers of the day are dangerous, for they may act their dreams with open eyes, and make things happen.”
