

About Us:

Here at [Podium Pods](#) we offer high quality, factory finished modular constructions for bathrooms. The modular construction process, that being manufacturing major parts off-site, has quickly gained popularity as builders realised that not only is this process faster, easier and cheaper, but it's also an extremely efficient method for constructing and assembling new bathrooms. By engineering parts off-site, this reduces waste, mess and hazardous construction tools on-site.

Our innovative bathroom designs are commonly used in multi-unit projects including in luxury apartments, hotels, hospitals, aged care facilities and residential accommodation. Save yourself the headache of dealing with the logistical stresses of bathroom construction. Unlike other bathroom manufacturers, with Podium Pods, we have one contractor, one point of contact, one source, one delivery and one invoice, meaning we can get your job done faster, cheaper and better!

Our Bathrooms:

If you are looking for a quality built bathroom, look no further than Podium Pods. Our ability to adapt to different situations and construction needs enables us to provide you with more innovative design solutions. Choose from a range of standard designs or add your own personal touch – with Podium Pods we give you the power to decide!

All of our designs are built for safe transportation, long-term maintenance and accessibility. With Podium Pods, we have the production line advantage and can deliver your new bathroom to you in no time!

Choosing Podium Pods means that you can enjoy the benefits of:

- Fully waterproof floors and shower recess walls
- Moisture resistant internal linings
- Single point of connection for water, power, grey water and black water
- Innovative design features
- Various flooring options to allow a visibly seamless transition into other rooms
- Designs suited to comply with electrical installations AS3000, AS3500 and BCA
- Lightweight, high strength, cold formed zinc coated steel wall and roof frames
- Isolated pipework which reduces sound transference in the bathroom unit

The Podium Pods Advantage:

- **Budget:** we work with it, not against it!
- **Schedule:** save time and money with off-site manufacturing
- **Environment:** reduce your environmental waste by 40%
- **Quality:** innovative designs, safe construction areas and superb finishings
- **Experience:** trust the experts who know bathrooms best

As part of the McNally Group, Podium Pods have over 25 years of experience in modular and off-site construction. You can be sure that with this experience, you will always receive quality installations and products.
