# A simple and effective way to fundraise.

*Design a Brick provides a simple and effective way for schools to maximise their fundraising efforts and create a long lasting legacy for their sponsors.*

Our unique fundraising products invite school members, the local community and small businesses the opportunity to be recognised and remembered for their support.

## What we offer

We provide personalised engraved bricks and pavers for your school that can then be laid into a path or wall of recognition in a place of prominence.

The personalisation of the bricks and pavers is provided by your sponsors – school students, parents, teachers and staff – their families and friends, local community members and small businesses. We take their unique design and engrave it onto our quality brick and paver products.

The product is then delivered to your school ready to be laid.

In addition, we will also help you to establish your fundraising campaign by providing templates that you can use to generate flyers and posters to successfully advertise your campaign in and around your school.

## How we're different

We offer a low purchase price for our products which allows you to set the sponsors contribution and receive a greater return on investment.

Our range of pavers is based on contribution size, which provides you with flexible options for sponsors who wish to donate just a little... or a lot!

The acknowledgement of your sponsors through a personalised paver laid in your school provides an everlasting connection between your sponsors, your school and your community.

Partner with us on your next school fundraising project and receive personalised service, quality products and long lasting satisfaction.

For pricing details and to see more of our extensive product range please contact us or visit our website.
