

ACCELERATE BUSINESS GROWTH, PROFITABILITY AND CREATE FLOW.

Your uniquely designed blueprint gives you access to over 25 years of experience in small Business Management.

During the blueprint process you'll replace or reduce further costly outsourcing or consultant's fees in these areas - administration, business coaching, productivity coaching, strategic planning, cash flow management, organisational change management, visual merchandising, point of sale design, Feng Shui consulting, marketing, data management, IT services and team engagement.

The most valuable resource you have in your business is your time. We help you to take control of your time by delivering effective systems and processes that match your physical space, the uniqueness of your service or product delivery, budget and life goals.

During the blueprint process you will discover:

- your own unique logic and how to keep the business organised and productive
- the uniqueness of your business that sees you stand out from your competitors
- how to remove the blocks or obstacles that have restricted you from reaching your goals
- areas for potential accelerated growth
- where there are opportunities to reduce costs
- how you deliver exceptional customer experience

Blueprint Jump Start

Your blueprint jump start is designed for new businesses and new to business owners. Starting with strong foundations in your business is essential for growth. Having a plan of the systems for data storage and how your customer experiences your offering will give you a flying start especially in a competitive marketplace.

Blueprint +

Designed for existing businesses and business owners. You have achieved some success but now are ready for further growth or have recently expanded. Existing systems are no longer meeting the needs and growth of the business or are clogged, overloaded and costing you time and money. You would like to take more strategic actions that meet your goals.

Blueprint Genius

The ultimate blueprint covers in detail all areas of your business. Designed for established businesses that may have one or more team members or outsourcing needs. You've had good success but it's time to take stock of what is and isn't working. You may want a fresh set of eyes to invigorate the business. Blueprints extend to team members/outsourcing functions. Receive extended one to one service to lead you to your success and streamlined flow. Includes a bonus, assess and adjustment session to ensure your blueprint is working for you and team.

Blueprint	Jump Start	Plus +	Genius

Investment (prices exclude GST)	\$900	\$1800	\$3800

How to Get Started

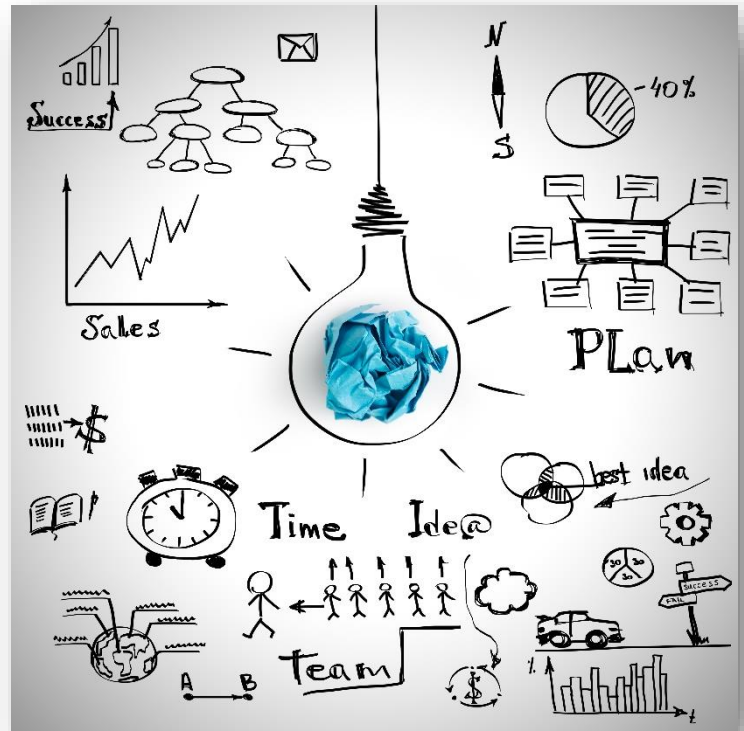

Getting started is sometimes the biggest hurdle business owners face when it comes to organising and putting in processes. We will help take the pain away, by making this a simple and step by step action orientated process. Ultimately you are in control of how your business runs, our role is to help you design your blueprint to bring you the best results.

Step 1. Call Carolyn for an initial chat about where the Blueprint will be applied in your business and your ultimate objectives to achieve. Schedule the initial phase appointment.

Step 2. During your first in house appointment we will establish existing processes and systems to begin the first draft of your Business Data blueprint, Customer Experience Blueprint. Where possible initial workflow and space re-organisation implemented for immediate results.

Step 3. Receive the first draft of your Blueprint. Blueprint Plus + and Genius schedule second appointment where we will go into the finer details of the system categories, operational workflow, visual merchandising, habits to support your blueprint flow and any essential key areas to address.

Step 4. Installation of processes and completion of other blueprint elements. Draft revised at each step to ensure all processes can be duplicated and followed by any existing and future team members. Enjoy the flow in your business and life. Grow with confidence and love what you do and do what you love.
