## ABOUT US

Founded in 2010 as a customer focused alternative for safety sticklers, quality connoisseurs and those who appreciate genuine honest service, Hit The Switch is an enthusiastic team of local qualified electricians servicing the inner east and south eastern suburbs of Melbourne.

We garner a positive 'can do' mentality, because we believe that you should experience excellence every time you come into contact with us.

*"If you have electrical work that needs to be fixed, installed, maintained or upgraded, we're here to help you get it done quickly, professionally and accurately."*

**Steven Puyol**, *Director*  
*Hit The Switch*

## EXCELLENCE EVERY TIME

- We believe you deserve honesty and transparency, so we provide accurate, free, up-front quotes within 24 hours of visiting your property. We take photos of your roof space and wiring so you can see exactly what we see when checking your property, giving you the information and control to make an informed decision to suit your personal and financial needs.
- We believe you deserve to feel safe, respected, comfortable and confident so every Hit The Switch electrician has a 'Police Check' and 'Working with Children Check' for your piece of mind. Each Hit The Switch electrician is a fully Licensed A Grade Master Electrician. They are friendly too!
- We believe you are important and that your time is valuable, so we promise to call you back if we miss your call. We will also call you 30 minutes prior to arriving at your property each and every time we visit.
- We believe you shouldn't be left in the dark, so we provide a genuine 24/7 emergency service to the inner east and south eastern suburbs of Melbourne.
- We believe that cleaning up is OUR job not yours, so we will dust, wipe, vacuum and tidy, leaving your property just as we found it.
