

WHY TAKE THE RISK?

A slip could cost you far more than tens of thousands of dollars.

- Loss of Production
- Loss of Life
- Loss of Customer or Employee

THE SOLUTION IS HERE: "Soak It Up"

3 Easy Steps

SCAN HERE

1. Spill It

Grab Soak It Up absorbent, a dustpan & broom. Use PPE & Wet floor sign where required.

2. Soak it Up

Spread Soak It Up generously on the spill until fully covered. Gently agitate the spill & absorbent with the broom until the spill is fully absorbed.

3. Sweep it up

Sweep the spill and any broken container into the dustpan with the broom. Discard the spill contents into a waste bag and dispose of as per Government regulations for the spill contents.

= Safe & Dry
