## What is needed to clean food plant?

### 1-Cleaning Detergents:

Our Management team has worked Very closely with **Diversey**, Ecolab We are partnered with Diversey, We Provide chemical, monthly chemical Calibration report and other integrated Services on the behalf of Diversy. We are Very well aware of chemical application and Outcome.

**a- Alkaline(Foam) b- Acids c- Gels d- Quaternary Sanitizer e- Alcoholic Sanitizers f- Non-Foaming CIP detergent.**

## 2-Equipment:

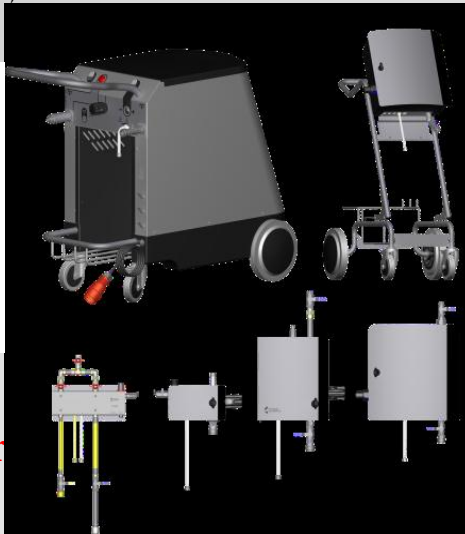

### Open plant cleaning

System.(Automatic & manual.

**Ash management** prefers Diversy Open plant cleaning system which surely best in the industry. System is designed to cater all types of facilities, from abattoir to Ready to Eat Facility. We use recommended low pressure cleaning system which reduces the risk of cross contamination, saves water and improves process.

We can negotiate  
Better price on your  
Behalf.

## 3-Execution:

### a-Hygiene Plan

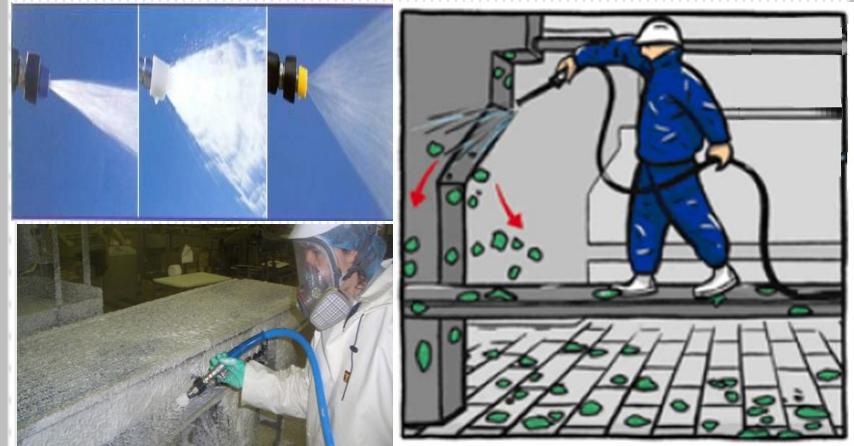

(swp, risk assessment, GMP, GHP)

### b-Trainings

(chemical handling, understanding of biological hazards, hygiene cleaning guide, plant safe work practices, industry PPE, emergency evacuation, duty of care)

### c-Documentation

(Pre-operational checks, verification, record keeping, NCR management)
