## OUR PEOPLE

Our staff and our systems are the secret to our success.

We pride ourselves on being "not your average suburban accountant"! And when our accountants come with prior experience in business banking, property development, tax audit and the mining, energy, transport and hospitality industries to name some, you can see why we would say that.

And our certification to the stringent standards required by CPA Australia is your guarantee of our expertise and our accounting systems.

## OUR BACKGROUND

TickTax Australia commenced operations in 2005 to service the tax needs of today's generation. As an off-shoot of Brisbane accountancy practice, Arabon, we have access to their 20+ years of expertise. The success of "professionals serving professionals" has led to the opening of branch offices in SE Qld.
