

ABOUT US

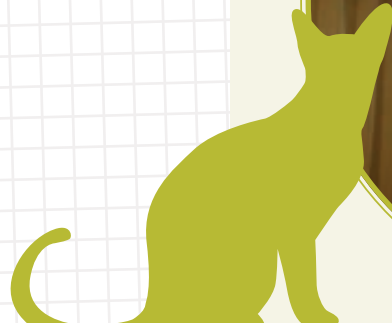

Robyn looks after the customer service side of CatSafe, and has been an avid cat lover all her life. She feels that domestic cats have been unfairly branded environmental vandals, and is also concerned at what seems to be a great increase in reported animal cruelty, to dogs as well as cats. Robyn is passionate about her three cats' safety and wellbeing, and her cats have all been brought up as in-house cats and have had enclosures for the last twenty years.

She also loves to feed the local native birds, and having her cats contained enables her to do this. Also the cats enjoy seeing the different wild birds. Robyn is also keen to ensure that her cats do not, and are not seen to do environmental damage.

Ken looks after the quoting, development and production side of CatSafe having previously been instrumental in developing Nu Steel Kit Homes franchise from 1982 to 2006.

Ken applied his kit home skills in designing CatSafe systems in a form and at a cost that is affordable for most cat owners.

CatSafe cat runs and cat enclosures are made of modern, high quality materials and are individually designed from each customer's photos to suit their specific needs, and those of their cat or cats.

Let CatSafe help you with the design and DIY installation of your cat enclosure.

CatSafe.
Quality Cat Enclosures

Keep your cats safe and give them room to move

Let your cats enjoy freedom, safe from the harm of predators, fights, disease & traffic.

PRICING

If you thought cat enclosures were expensive and out of your price range, think again.

Custom built netting cat runs and cat enclosures can be very expensive but, with a couple of photos and a few basic dimensions emailed to us, we can supply you with your own, custom designed enclosure at a fraction of the usual cost.

We looked for a more cost effective option and decided to use emails so now, when you send us a couple of your photos and basic dimensions, we can achieve the same results and save you hundreds of dollars.

Our cat enclosures provide your precious pets with these benefits

- More social interaction for you and your cats
- Protection from cars, dogs, cats, and other predators in your neighborhood
- Reduced incidence of disease and injury due to cat fights, and therefore reduced vet bills
- On average, your precious cats will live 10 years longer than cats that are not confined

- 1. Logon:** Go to www.catsafe.com.au and click the link to "grab a quote"
- 2. Measure:** Take a couple of photos of the area you want to enclose, one from each end, together with the basic dimensions (length, width, height), then send all the details by email and we'll send you a quote
- 3. Install:** All you need to do is follow the easy DIY installation instructions. Email and phone support is available at all times
- 4. Enjoy:** Your cats will love you for it. Every CatSafe cat enclosure has a 10 year netting guarantee, so if there are any problems simply call or email us.
