BUT OUR CUSTOMERS WILL

Gerard impressed with engine repair

Gerard Gervaise is the founding Branch Manager of Bertrand Export Queensland. All staff speak fluent French as their work is in New Caledonia, Vanuatu & Tahiti.

Gerard is very happy with an engine repair by Torquepower. The engine was powering a Genset for a crushing plant. *"We wanted to ensure the parts were genuine, and we needed someone we could talk to along the way, like Paul Duce. We are surprised how well everything went, and when we saw there was a follow up DVD on the dyno-testing, the client and I were very impressed. Torquepower providing a Dyno DVD is like a badge of authority."*

***Every Part • Every Time • Every Model in the range
Because it's all we do, we do it well.***
