

Corporate Profile

NetLogyx

Awesome IT for Business

Neil Frick CEO

Netlogyx understands the importance of technology in today's competitive business world, and offers its clients in-dependent consulting advice on IT products and services.

We recognise the importance of computer networking and communications in today's business environment and how equipment and technology failure can impact on the efficiency and profitability of the business.

Our mission

People

Building a committed, highly qualified and experienced team with respect, knowledge and positive personal development through a culture of encouragement and support.

Process

An innovative results-based organisation utilising consistent, efficient systems and proven methodologies to meet client needs.

Relationships

We are trusted advisors who take the time to listen and understand our clients' outcomes requirements, through communication, respect and honesty.

Netlogyx was launched in June 2014 by CEO Neil Frick, after over 30 years of direct information Technology experience preceded by 10 years Technical practice with a large range of electronic communications equipment.

We analyse your desired outcomes before determining the best IT solution for your needs. Netlogyx has two main service areas:

- **Technology Management** - Helping you analyse your strategic technology needs
- **IT Technical Support** - Keeping your IT system in great shape. Our commitment is to provide our clients with outstanding service, real IT solutions, stream-lined processes, and a competitive advantage.

Awesome IT for Business

Technology Management: Helping you analyse your strategic technology needs

We believe technology exists to support and streamline your business processes. Our experienced staff can help you determine the best technology for your business needs. We specialise in:

- IT Architecture Audit, Analysis & Planning
- IT Systems Evaluation & Selection and
- Project Management.

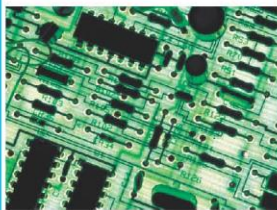

By setting aside the time to properly plan your IT system requirements, you will increase your business' productivity and reduce computer downtime, saving you money in the long term.

IT Technical Support: Keeping your IT system in great shape

Like cars, IT systems need regular maintenance to keep them running at their best Netlogyx provides the full range of IT support services. You have the choice of three easy IT support options:

- **Maintenance Plus:** A regular IT maintenance and support program aimed at providing long-term solutions rather than a 'quick fix'
- **Pre-paid Maintenance:** Pre-paid support hours that saves you money and allows you to maintain total control over how the hours are used
- **On Demand:** Allows you to access technical support, if and when you need it
