

# NuFusion SHUTTERS

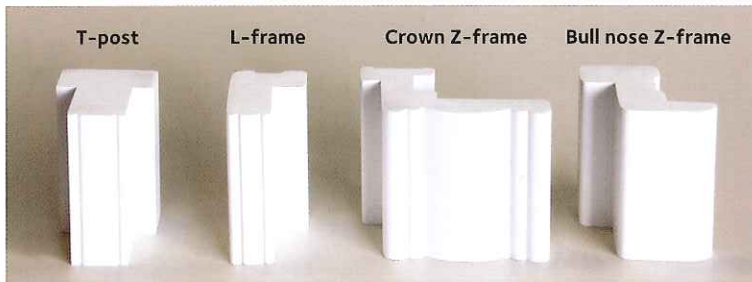

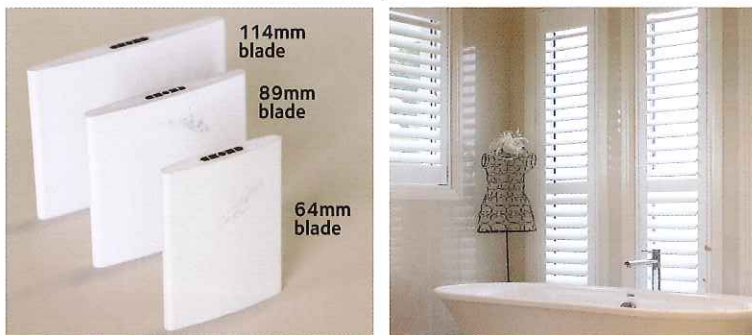

NuFusion Shutters are elegant and functional window coverings suited to any indoor or outdoor area in your home. By incorporating aluminium core inserts in both the solid elliptical blade and panel stiles, NuFusion Shutters deliver higher strength and greater rigidity which prevents sagging and distortion.

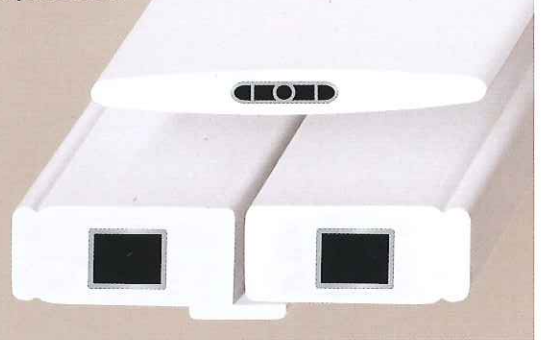

NuFusion Shutters come standard with a 20 year warranty to give you added peace of mind. We guarantee your shutters will not chip, crack, split or distort and will look as good as new for many years.

You have complete control of your living environment by simply adjusting the blades – open to allow the cooling effect of summer breezes or close to retain heat in winter.

Available in fixed, hinged, sliding or bi-fold styles, NuFusion Shutters enhance both modern and traditional architecture. Choose from our range of 10 designer colours or select a custom colour to suit your décor.

Aluminium core  
in louvre blades  
& panel stiles

- **Strong mortice & tenon joints:** glued with long high tensile screws.

**FHA** WHOLESALE

Please note: FHA are agents for NuFusion Shutters and will not be responsible for any delays from the manufacturer. Depending on the season, volume of work and shipping, delivery times can vary between six to ten weeks from receipt of order. Disclaimer: Shutters are individually handcrafted and custom made to your specific requirements. Occasional marks and slight irregularities to the finished surface may occur and forms part of the character of plantation shutters. An industry rule is that any mark or irregularity should be difficult to detect from a distance of at least 1.2 metres. Bright light or various angles may highlight any imperfection and is to be considered as normal and forms part of its natural character.
