

**Ambius** Indoor Environments Case Study

## iiNet

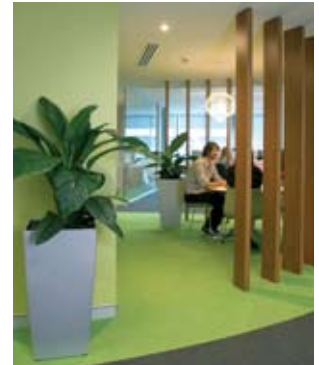

Our client, iiNet has grown from a small Perth business in 1993 to be listed on the ASX in 1999. iiNet now supports over 900,000 broadband, telephony and dialup services, and proudly employs more than 1,600 people in Perth, Sydney, Melbourne, Auckland and Cape Town. In their headquarters in Perth, their workforce are supported with a contemporary new office fitout. Plants have been incorporated with stunning effect.

### The brief

iiNet pride themselves on their service – they differentiate with genuine, plain-speaking customer service that has won them awards and strong market presence. In order to provide such cutting edge, helpful and friendly service, they need happy, healthy and engaged staff. The answer – a new contemporary fit out for their headquarters in Perth which included green life throughout, to help provide a quality visual amenity that also helped to make their predominantly young staff feel more comfortable, relaxed and energized.

### The solution

The iiNet Facility Manager worked with the **Ambius** team to source and install this project. **Ambius** assisted with recommendations of suitable plant varieties and contemporary design solutions within the set budget. **Ambius** recommended using elegant white Cubico and Quadro containers as cabinet top planters with alternating striking Red rubber plants (*Ficus elastica*) and Mother-in-law's tongue (*Sansevieria*) throughout the large open workspace. Accent pieces were added in reception and foyer areas including warm and welcoming wooden containers with beautiful foliage plants.

### The results

**Ambius** installed and continue to maintain the plants. Plants included in breakout areas and informal meeting rooms create a relaxed atmosphere, where staff feel more energised and productive. The plants in the open plan area also help absorb noise and help to break up the hard lines of modern office design. The end result is in keeping with iiNet's strong brand and corporate culture – young, contemporary, relaxed and high energy. Overall, there is a certain casual elegance about the simplicity of the containers, colours and plants chosen. iiNet is happy with the installation and ongoing service from **Ambius** Plant Technicians.
