different grades and hardnesses
of polyurethane compounds.*

*Polyrubber has been operating
since late 1987 and its personnel
have gained expertise from nearly
20 years experience in the industry.*

*We also have the back-up of
polyurethane raw material
manufacturers, suppliers and
chemists with unlimited knowledge
and expertise in this industry and
have access to N.A.T.A. registered*

*laboratories which have Quality
Management Systems in place that
comply with the requirements of*

AS/NZS ISO 9002:1994

for certain product testing.

With our strict process control

we are able to issue a

Certificate of Compliance.

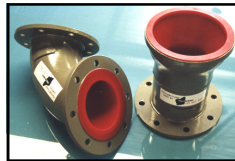

POLYRUBBER

**MANUFACTURERS OF POLYURETHANE PRODUCTS AND
CUSTOM MOULDINGS**

Committed to Quality

Product Information

Mining

Coatings, linings and custom made products (abrasion and impact resistant).

Pipe lining (*bends, tees, straights, wyes, reducers, spools, etc.*).

Launders, hoppers and attritioning cells linings.

Conveyor systems and associated components: (*belt scrapers, skirts, pulleys, rollers, wedges, etc.*).

Pump part refurbishing: (*diffusers, oil housings, volutes, frame plates, impellers, expellers, etc.*).

Transport

Refurbish and remanufacture of existing truck and other vehicle components.

Engine, gearbox and cab mounts, sway-bar bushes, torsion rod ends and 'V' stay end repairs, trunnion blocks and bushes, body and spring pads, buffers, etc. and 'custom' made parts.

Truck 'Poly Parts'

'A' frame cone bushes, rocker box bushes, freighter type replacement parts, turntable bushes, air spring cushion replacement bushes, ringfeder type wear slides (40mm & 50mm),

custom made spring, shackle and shockie bushes.

General Industry

Custom moulded and machined products made to your specifications - *billets, blanks, blocks, sheet, strip and any other custom made items.* We also

re-lag and refurbish all types of wheels, rollers, pulleys for forklifts, conveyers, and trolleys.

Machining

We machine and supply all industrial and commercial rubbers and plastics to your drawings sketches and requests.

Rubber Products

Extrusions, mouldings, linings, seals and custom machined items.

General and Industrial

Products related to general, commercial and industrial applications.
