

# Customised   Commercial   Vehicle Fitouts

## **Bars N Racks**

Celebrating 30 Years - on and off the road

Whether a brand new vehicle requiring a custom fit out or an existing vehicle requiring a upgrade to something that provides better utility and organization, Sydney based (Brookvale) Bar N Racks can do an amazing job - one that you would be proud to show off to your friends.

Plumbers,  
carpenters,  
electricians,  
gardeners, animal  
care services, civil

contractors etc. all require a properly equipped vehicle – one that provides them with everything they might possible require on the job. Such vehicles are of course not available ready-made but are custom outfitted with bins, racks, cargo barriers and various types of storage systems fully customised to your business requirement.

Not only will you be able to store your equipment, tools and spares, you will also be able to quickly find whatever you need.

Each component used by Bars N Racks is sourced from an impressive line of manufacturers including Milford – World leaders in such products, [rak-a-van storage systems](#) and under-floor systems for all types of vehicles. Everything used in your vehicle fit out is finely crafted, high-strength premium products that will provide you year and years of super smooth service.

Bars N Racks are experts at transforming your vehicle into an efficient, practical mobile workshop that will withstand heavy use even in the Australian outback. You or your team of professionals will be able to carry out their work with extreme efficiency and serve to impress your clients as well as encourage them to use your services again.

**Services at Bars N Racks include:**
