### Patrick Mulcahy

I've been practicing astrology and reading the tarot professionally since 1990. Over the years the knowledge and experience I've gained has lead me to develop an innovative, unique, and effective approach to interpreting astrological charts and the tarot. My ultimate goal is to help you overcome your life challenges and assist you to more perfectly align with your Path of Destiny. In other words, it's my hope that after our consultation you'll find it easier to move forward on your 'soul path'.

### The Big Challenge We All Face

Many of us become stuck in 'soul-destroying' situations because we're blind to other more desirable possibilities that are available to us. The material world appears full of darkness and chaos, but the truth is we are blinded by the darkness (i.e. limited perception) of our own minds. When the mind becomes illuminated with a new light of understanding then we're able to see the deeper soul-based 'Reality' that is seeking to manifest in our lives.

The human soul is a powerful creative force that's seeking to shape your life according to its own divine blueprint. Your soul's blueprint is designed specifically to enable you to fulfil your purpose for being here on the planet. But the soul requires your conscious cooperation to bring your true destiny into manifestation.

You are the medium through which your soul can work its magic, but for that to happen you must be willing to surrender to the inner guidance of your soul and this requires some mental 'reprogramming'.

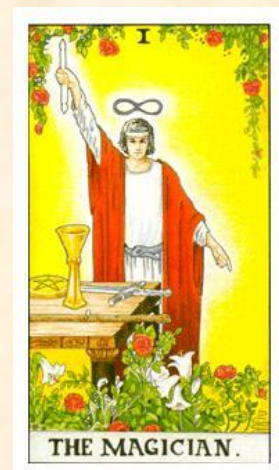

We all have thoughts, ideas, illusionary fears, and personal beliefs that distort our perception of the world. It's as if we become enshrouded by a debilitating darkness. This darkness must be illuminated and replaced by knowledge of the true nature of our inner potential Reality. And we also need to know how we can cooperate with our soul in order to manifest it.

We all have a divinely fashioned inner potential Reality that's seeking to move through us and manifest its design in the physical world. The soul is the 'father' and you are the 'mother' who's giving birth to a divine child. The birth occurs as we open up channels that allow the energy of the soul to flow through us and into our environment. We create these channels by making decisions and taking action in accordance with our inner guidance.

There's a little-known esoteric mechanism (like a magical force) that we're not told about during our mundane education. But it may be the most important natural law of our world. Basically, this natural mechanism activates when we open a channel that allows the soul to release some of its force into our environment. It's generally unknown that the psychophysical environment of the Earth is pre-programmed (by the Creator) to physically respond to each individual soul's creative impulse.

The Earth has been tasked by the Creator to provide the physical resources that are needed for each individual to manifest their inner Reality blueprint. So if you open a channel that enables your soul's creative impulse to enter the world then you'll evoke a supportive response from Mother Earth. It seems like magic, but it's divine nature. The energy of the soul automatically stimulates the Great Mother to draw towards you the resources and opportunities you need to bring your inner Reality into manifestation. This is truly the Great Secret of success for every human-being.

But how do we activate the magical process in our lives?

Saying 'affirmations' is definitely not the answer. Rather, the raising of consciousness is required—a process of re-education (i.e. a reprogramming of the mind).

Let me explain...

Each one of us is born into an environment that conditions our way of thinking and how we perceive the world around us. In developed Western nations we are taught to focus on the material aspects of life, and on satisfying our material desires. This mode of perception

can lead to some brief satisfaction of the physical senses, but ultimately it prevents a deeper feeling of happiness and fulfillment that comes from following the Path of the soul.

When we reach 'middle age' we tend to become aware that something important is missing in our lives. And at this 'turning point' it's crucial that we acquire guidance that will help us shift our focus away from the material dimensions of life and teach us how to become more involved in the creative process of the soul. If you have reached that point in your life then you'll find my developed techniques of astrology and tarot very useful.

I will help you to understand the design of your inner Reality blueprint by interpreting the astrological configuration of your birth-chart (and/or by using the tarot). I'll also offer advice on how best to approach your individual life challenges (as indicated in your chart) so that your life can become easier and more personally satisfying.

I look forward to working with you.
