Welcome to [Prime Beauty](#)

Our skin care centre is conveniently located in the heart of Sydney's CBD underneath Martin Place. The centre has a very pleasant and comfortable environment with beautiful calming music that helps you to unwind from a busy stressful day (even if you just come in for an eye brow wax).

At Prime Beauty, we offer all sort of beauty services with exceptionally high standard and hygiene level such as "No Double Dipping" in any waxing treatments, we also provide a wide range of professional skin care treatments with advanced technologies i.e. [Omnilux Light Therapy](#), [Microhydrabrasion](#) etc. Our treatments are based on non-invasive and result driven where a range of cosmaceutical products are used to address different skin concerns in all age groups, including men and women.

Our professional skin care specialists are highly educated (paramedical qualified) and professionally trained with years of experience. We will help to customize your personal treatment program that will suit your lifestyle and meet the need of your skin. We are here to ensure you are truly well-looked after in achieving your skin care objectives.

Best Facial in Sydney

Consultation

- The purpose of skin consultation is to assist professional skin consultant to determine which treatments work best on particular types of skin, and to understand your medical history.
- To perform a skin analysis, the consultation process begins with basic facial cleansing, performed by your professional skin care expert. During this time, you have the opportunity to discuss and address any concerns you may have regarding your current skin condition. Upon assessment, your professional skin care expert will tailor a personal skin care programme according to your skin condition.
- Consultation fees apply but are however, redeemable. Simply ask your professional skin consultant how!

Omnilux light therapy

- Omnilux is a Light Emitting Diodes scientific technology which has always been used in medical and aesthetic communities. It's a non surgical, non-invasive and non-UV light therapy, which has predetermined wavelengths that penetrates deep down into skin where no products or pressure can reach. Omnilux is TGA and FDA approved light therapy, and is used worldwide by many dermatologists and plastic surgeons to enhance the result of skin therapies.
- This LED light therapy enhances skin natural health by working with the body natural process to counteract sign of aging and healing of acne prone skin. It rejuvenates and promotes healing of any inflammation or redness, helping skin looking brighter, more youthful and radiant. These benefits will improve continuously over a period of time, and can be maximised when combined with some of our professional salon treatments. Please speak to our professional skin care expert of how to maximise these benefits. A course of treatment is highly recommended to achieve the maximum results.

Microdermabrasion Sydney

- Unlike the traditional Microdermabrasions which were found to be uncomfortable and excessively messy. The new MicroHydrabrasion is the latest trend when it comes for comfort in skin exfoliation treatment as it is non abrasive and painless. This is the newest way to ensure that you have the cleanest skin ever

Micro-hydrabrasion is a system that exfoliates the skin with diamond tips whilst simultaneously cleans the skin as well, with the benefit of the water system it gets right into the skin follicles and washes all the debris out. The water system also provides cooling and soothing, making it a truly refreshing treatment. Micro-hydrabrasion can also be combined with other skin treatment to achieve an optimum result.

Benefits of Microdermabrasion Sydney :

- Non-invasive Medical grade exfoliation
- Minimise pore size
- Improve scarring
- Improve skin texture and discolorations
- Reduces appearance of fine lines and wrinkles
- Refresh and revitalise dull looking skin
- Immediate visible improvement

Generally, the concept of microhydrabrasion is regarded as instant result treatment. However, for more specific skin concerns, a gradual programme (where you will need a sequent number of treatments) is recommended for maximum result. Treatments are normally done in a pattern of once a week for a minimum of 5-6 weeks. Thereafter, a fortnightly or monthly treatment is required to maintain the result.

Spray tan Sydney

- **Premium Quality Tan**
- At Prime Beauty, we only use the purest tanning solutions to give the most natural looking colours, odour less without putting yourself to the risk of any harmful chemicals or skin cancer.
- SunFX is recognised as the world's No1 professional airbrush Spray on Tanning Systems, and the world's purest and the most natural tanning ingredients.
- SunFX tanning solutions are made from a highly advanced, all natural formula, which combines highly purified water and natural bronzers, with the purest dihydroxyacetone available.
- Dihydroxyacetone, or DHA as it is more commonly known, is a 100% natural tanning agent that reacts with the amino acids in the skin to produce a rich, completely natural looking tan.

Waxing Sydney

- Waxing is a semi-permanent hair removal method which removes unwanted hair from the root. Almost any part of the body can be waxed, including facial hair. Hair removed from the root leaves the skin feeling nice and smooth for a period of about 2-8 weeks. Waxing is generally preferred over shaving as it not only leaves the skin feeling nice and smooth but also result in hair regrowth to become much finer and softer to touch.
- Prime Beauty caters for all waxing services for both men and women. We use different types of waxing for different area of the body and only high quality wax are used making sure our clients receive the best result possible. Please click to see our [men waxing](#) services.
- Prime Beauty maintains superior hygiene standard by strictly adopting the "**NO double dipping**" policy in all of our waxing treatments. To ensure maximum results, we use only the best quality wax with premium hot wax used especially for sensitive areas of the body.

Men Waxing Sydney

- Waxing is a semi-permanent hair removal method which removes unwanted hair from the root. Almost any part of the body can be waxed, including facial hair. Hair removed from the root leaves the skin feeling nice and smooth for a period of about 2-8 weeks. Waxing is generally preferred over shaving as it not only leaves the skin feeling nice and smooth but also result in hair regrowth to become much finer and softer to touch.
