

# MELBOURNE DENTAL CLINIC

Melbourne Dental Clinic (MDC) is a brand new State-of-the-art comprehensive not-for-profit dental clinic on the northern fringe of the CBD.

As part of The University of Melbourne, MDC provides greater access to quality dentistry for the many people who live, work or study in the CBD and surrounding suburbs. A comprehensive range of services is provided by dentists and specialists in training under the guidance of Professors or highly qualified specialists.

Dental Clinic

## HOW IT WORKS

On first visit to the clinic, patients will be assessed by Melbourne Dental Clinic's (MDC) team to ensure that each patient has the most appropriately skilled clinician assigned to their case.

Every patient is assessed and a personalised comprehensive treatment plan is developed by the clinical team. The team comprises of two practitioners, one of whom is a Professor or highly qualified clinician.

Seamless integration of all systems within the centre enables each specialist to have instant access to patient files, treatment plans, laboratory results and 3D imagery of teeth and jaws.

Depending on the patient's requirements, treatment may be wholly or partly performed by a dentist in training or upon request, one of MDC's Professors or highly qualified specialists when available. Preventative dentistry and oral health education for patients will generally be provided by supervised Undergraduate students, as part of the comprehensive dental care.

Treatment fees are based on the training level of the attending dentist and the complexity of the treatment.

## SERVICES

As one of the largest and most comprehensive private academic dental clinics in Australia, MDC is unique in its ability to offer six specialties as well as general dentistry in the one location.

Each specialty area has dedicated single chair rooms equipped with the latest dental technology.

MDC offers the following services:

- » Comprehensive oral health care
- » Cosmetic dentistry
- » Preventive dentistry
- » Restorative dentistry

## WHY CHOOSE MDC?
