**SUPPLYING  
YOUR BUSINESS  
WITH ALL YOUR  
CRANE NEEDS**

NESW Cranes is a crane manufacturer and supplier of first class crane components, offering long term material handling solutions to various industries throughout Australia. With our head office in Melbourne, we are able to service areas all over Victoria, as well as offering custom lifting solutions throughout Australia.

We are an agent and distributor of ABUS Crane systems of Germany. Through our association with a global leader, we are able to provide our customers with cost effective, high quality, tried and tested solutions based on proven crane components. ABUS components have undergone extensive research and development, ensuring compatibility and most importantly long term reliability.

**TRUST NESW CRANES & ABUS CRANE SYSTEMS**

**OTHER CRANE SOLUTIONS**

We are experienced in the design and construction of cranes and hoists outside of the standard ABUS range. By careful selection of standard and custom made components, combined with custom engineering and designs, cranes of almost any capacity, lift height or speed can be produced cost effectively.

**PROVEN SOLUTIONS FOR YOUR LIFTING NEEDS**

**CRANE SERVICING**

NESW Cranes service and maintenance division is equipped with a team of experienced, factory trained electrical and mechanical technicians who specialise in all aspects of crane installation, maintenance and repair. We service cranes of all sizes, types and brands within the Melbourne metropolitan and Victorian regional areas.

**SERVICES WE OFFER:**

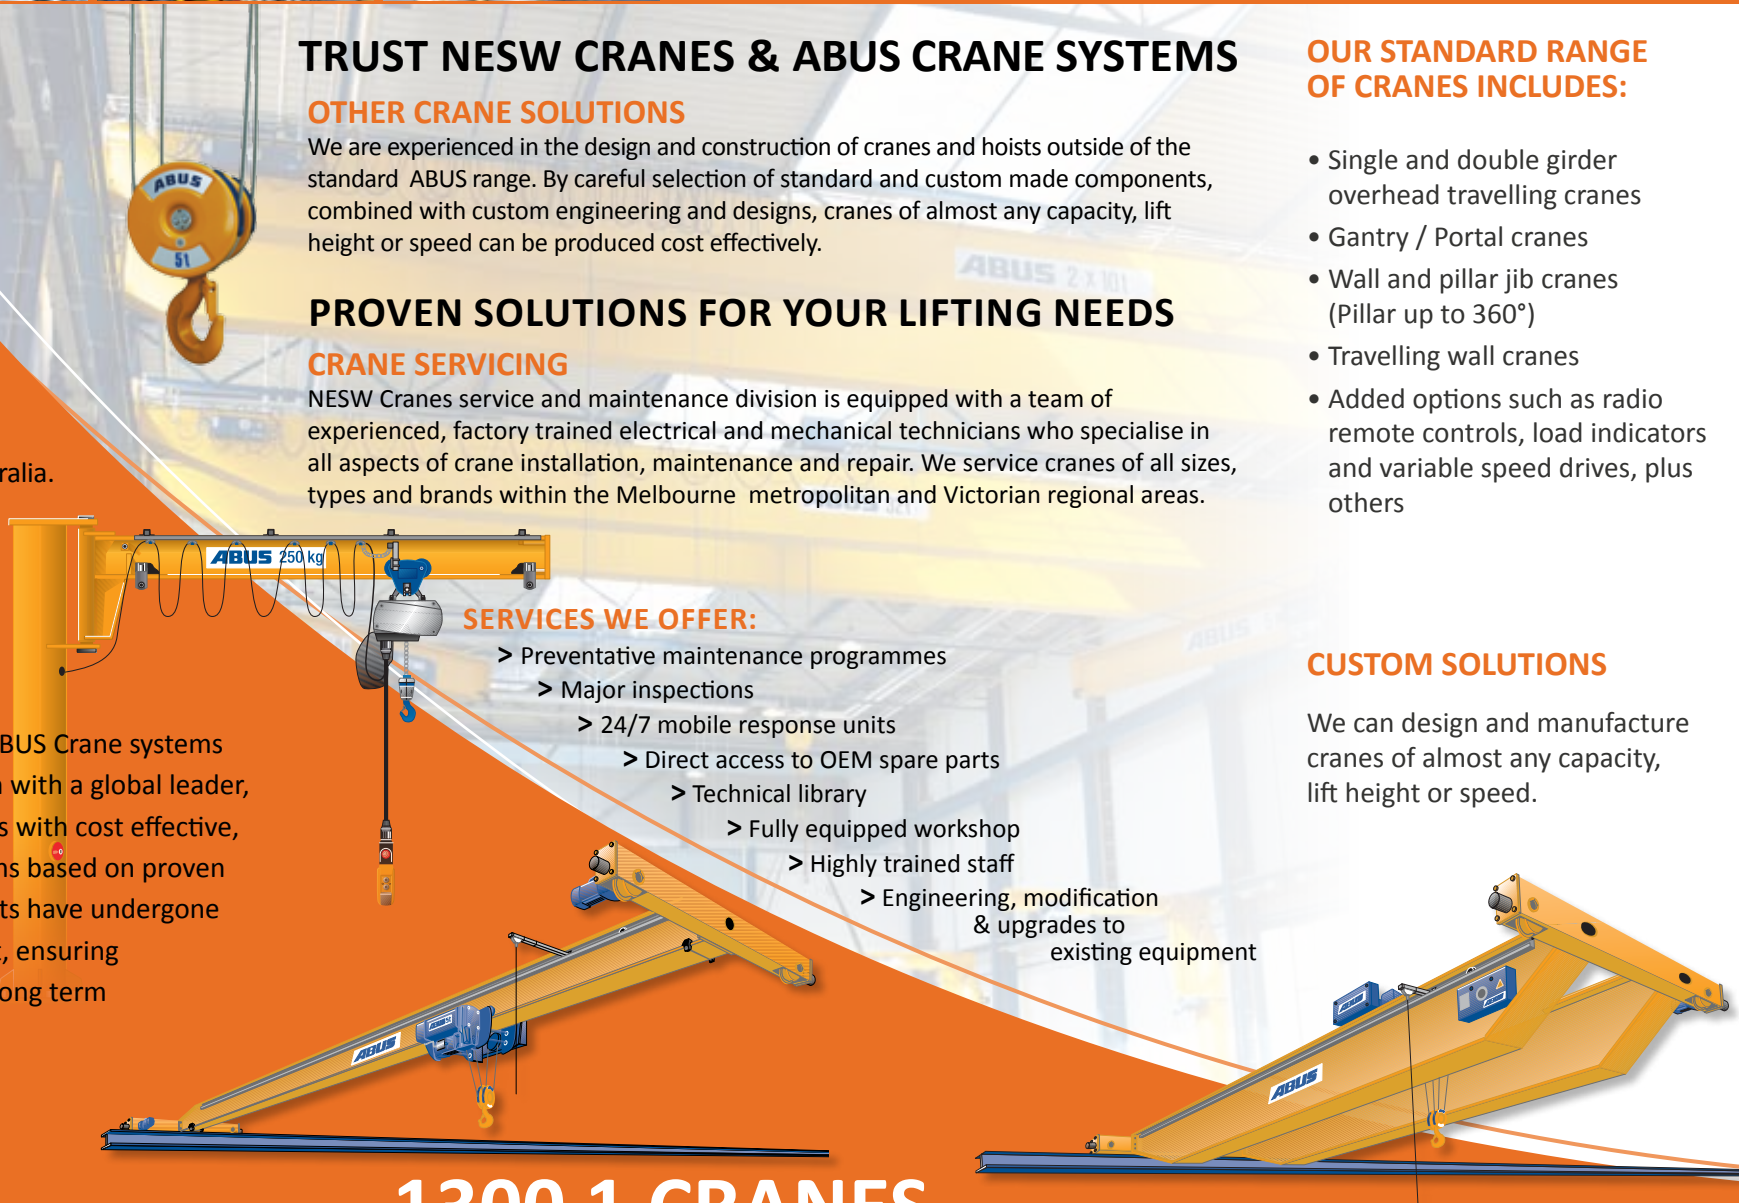

- > Preventative maintenance programmes
- > Major inspections
  - > 24/7 mobile response units
  - > Direct access to OEM spare parts
  - > Technical library
- > Fully equipped workshop
- > Highly trained staff
- > Engineering, modification & upgrades to existing equipment

**OUR STANDARD RANGE  
OF CRANES INCLUDES:**

- Single and double girder overhead travelling cranes
- Gantry / Portal cranes
- Wall and pillar jib cranes (Pillar up to 360°)
- Travelling wall cranes
- Added options such as radio remote controls, load indicators and variable speed drives, plus others

**CUSTOM SOLUTIONS**

We can design and manufacture cranes of almost any capacity, lift height or speed.
