Global Leading Manufacturer & Solutions Provider For LED Display Systems

# The World's Leading Manufacturer for LED Display Systems

## The world's leading manufacturer for LED display systems

Linso is a world leader in providing high-tech LED display solutions, both static and mobile, that deliver maximum impact for any budget. From its 8,000 m2 manufacturing, technical and service center in Shanghai China, the company produces a wide range of displays ranging from small LED balls, LED trailers up to 1,400 m2 static displays and entire TV studios.

Constant investment in LED technology and creative product development has won Linso significant market share, not only in China, but also recently in South Korea, Australia, Spain, America, Saudi Arabia and Brazil. If you need displays for advertising, TV broadcasting, public information, traffic signage, political events, sports stadiums or entertainment, Linso has a solution for you.

▲ LED Displays

▲ Mobile LED Advertising Vehicles

▲ LED Lighting

From the traditional LED product applications to innovative high-tech integration with varying types of media, Linso is always at the head of development trends in the LED industry. The service provided by Linso covers all aspects of customer needs, right from discussions and advice at the preliminary proposal stage, through new product research and development, and on to the manufacturing process with the highest and most stringent of quality controls. This is followed up by customer service including maintenance advice and post-production technical support.

The unique value of the Linso production and sales package is in its provision of the complete and best LED solutions to the company's world-wide customer base.

# Quality Assured

Quality Assurance Certification

## Quality assured

Linso products and practices are all certified in strict accordance with the implementation of the ISO international quality management systems. They also have certification from national supervision department as well as CCC, CE, UL, FCC, ROLLS, ISE and SAA at both domestic and international levels.

# Technically Advanced

## Technically advanced

**Innovation**  
The size and scope of the Linso business, along with its many years of experience with a wide range of customers gives the company an absolute advantage in the creation and operation of LED products. Linso was a pioneer in the development of specially shaped LED display products and integration of their use with innovative mobile media systems. And it continues to lead the world in developing new products, both static and mobile, in every sector of the LED business.

**People**  
A company is only as good as its workforce, and Linso is proud of the professional, experienced and committed people employed at all levels of its business.

**Production**  
Linso's Shanghai manufacturing plant is equipped with world class production line tooling and equipment sourced from the best international manufacturers.

## Production Testing

# World's Leading LED Technology

# ...and creativity

## World leading technology

### State of the art

Linso's technicians and software developers are constantly moving the state of the art of LED technology forward. Whether it's a flexible LED mesh that is light enough to display from an air ship to mechanically automated displays that introduce a new dimension to attention grabbing advertising, Linso can make your video communication wish list a reality.

### New challenges

Over of the staff at Linso are highly trained and experienced software engineers who can turn your ideas into viable projects often in a short time frame. So whether it's electronic or mechanical or a new software concept, new challenges are always welcomed!

## ...and creativity

Recent projects have included LED magic cube, LED ball, complete floor and wall systems for a major museum and for the famous Real Madrid Football Club Museum. Our mobile division have also produced small trailers that display 3D holograms as well as a steady stream of sophisticated customized units incorporating rotating screens, showrooms, staging and offices. Let us turn your creative ideas into LED reality.

Whatever your display requirements...

... Linso has the solution

Over 5000 installations worldwide

More than 5,000 customers worldwide have chosen Linso to supply their LED business solutions and the majority of these are at outdoor sites. From the world's largest radian screen, to motor way traffic gantries throughout Asia, to shopping centers in Spain and massive advertising displays in US, our engineers deliver whatever is required on time and on budget.

▲ World's biggest hyperboloid LED(720sqm)

▲ LED traffic signboard

▲ Linso LED screen for EXPO Shanghai

▲ LED large fixed outdoor sign on building

▲ LED Advertising Truck in Kosovo

▲ LED Advertising Trailer in Malaysia

Internationally exhibited...

...and internationally proven

Integrate 2013 and infoComm International Exhibition in Sydney

Internationally exhibited...

Linso presents its latest LED products in trade shows around the world domestic and international levels.

As one of the world's leading LED manufacturers and solution providers, Linso participates in many international professional exhibitions as a way of maintaining its excellent reputation with its customers and to reflect its position as a leading influence in the LED industry. Officially acknowledged as one Shanghai's Top 20 Export Companies in 2012, we take a worldwide view of our markets so we always deliver what the customer wants.

▲ 2013 Prolight+Sound, Shanghai

▲ 2013 Digital Asia Conference, Manila

▲ 2013 Europe Signature Expo, London, UK

▲ 2012 Serigrafia SIGN, Sao Paulo, Brazil

▲ 2012 International Ad & Sign Expo, Dubai, UAE

Cities in all corners of the world come alive with Linso displays.

▲ Madrid shopping mall

▲ Nigerian election truck

▲ Singapore car park

▲ Kazakhstan business park

▲ Barcelona shopping mall

▲ Euromedia France TV Station Live Hall

## Features of Rental LED Displays

Capacity: Cabinet size: 480mm\*480mm, suitable for P3.75, P4

576mm\*576mm, suitable for P4.8, P5.33, P6

500mm\*500mm, suitable for P1.952, P3.906, P5.208, P6.25, P7.812

640mm\*640mm, suitable for P6.66, P8, P10

Light: Weight: 9.3kg/pc. Only one hand can hold it, assembly time saved.

Thin: Die-cast aluminum design, high intensity, high tenacity, high precision, unchangeable, thickness 80mm

Fast: Fast locks ensure the closed two cabinets with high precision without any gap. Easy to assemble and disassemble.

Easy: Modular design, easy to assemble and maintain.

Low: Wonderful design for natural heat releasing, no need for fans or air-conditioner, low noise, low structure cost.

## Features of LED Curtain

- Light weight; ultra-thin design; easy disassembly and transport; easy implement large screen
- Outdoor Waterproof SMD LED, High brightness, high flatness, energy-efficient
- 120 ° wide viewing angle both on horizontal / vertical, wide range audiences
- IP65 protection, applies for whole outdoor and indoor use
- Hollow box design, wind resistance, high security
- Easy maintain, individual movable LED strip.
- No fan design, good cooling and keep quiet.

## P10 Mesh Curtain

Transmittance	35%	35%
Best Viewing Distance	16-30m	16-70m

## Features of LED Floor

- Sealed structure design cabinet, light weight, easy disassembly and installation and maintenance.
- High strength and durable anti-slip translucent resin mask material, high wear resistance, good shock resistance; contained material, single force point can load up to 1000kg.
- One card controls one cabinet, 16bits gray scale, clear and realistic pictures.
- Low cost, excellent performance, good application for exhibition show, dancing bar.
- Products series include **P6, P8, P10, P16, P20** and any available customer designated pixels.

Application	Fashion shows	Fashion shows

Linso led football screen has a high advertising value. It brings the audience the most perfect scene of competitive experience and enhances the brand of goods at the same time.

Features:

- The angle of the rear support frame can be adjustable and the viewing angle of the display can also be adjustable in order to achieve the best viewing effect, lifting, stacking. It can be retracted and fixed on the cabinet.
- Unique level of connection lock settings to ensure that the fence screen surface flatness and minimize splicing gap.
- Top of overhead guard design, using imported materials overhead guard, good cushioning of the impact force, can effectively protect athletes from injury.
- The unique soft mask design, protect LED display impact and damage from football or players.
- The entire cabinet is made of aluminum alloy material, lightweight and practical.

Adjustable inclination design

Control system	IPC + Master card+ fiber optic transmission/3G wireless signal transmission					
MTBF Mean Time Between Failure	>5000 hours					
Lifetime	>100000 hours					
Blind spot rate	<0.0002					

Indoor full color LED display series(Indoor module)

Indoor cabinet

Feature:

- Low power consumption
- High brightness
- Low tolerance
- 100% detection
- Wide viewing angle
- Long life
- High refresh frequency
- 100% aging

Advantages:

- Good consistency: 100% classification in batches
- Good flatness: Adjustable magnets, masks formation
- High brightness: Reach 1500cd/ m<sup>2</sup>
- High stability: 72 hours complete aging
- Simple maintenance: Support both front and side

LS-IT7WT5/LS-IT17WT5

LS-IT8WT8/LS-IT20WT8

**Product Details:**

Certification: CE/FCC/ROHS  
LED Type: 5630SMD/3528SMD  
Power Consumption: 7-20W  
Input Voltage: AC85-265V  
Beam Angle: 120 Degree  
Color Temperature: 3000±200K; 6000±500K  
Luminous Flux: 90-100LM/W  
Working Temperature: -30°C~45°C  
Color Rendering Index: ≥75RA  
Power Supply: Built In  
Light Base: G13  
LED Lifespan: ≥10,000 Hours

LS-IQ7W

LS-IQ10W

**Product Details:**

Certification: CE/FCC/ROHS  
LED Type: 5630SMD  
Power Consumption: 7W 10W  
Input Voltage: AC85-265V  
Beam Angle: 120 Degree  
Color Temperature: 3000±200K; 6000±500K  
Luminous Flux: 425LM 595LM  
Working Temperature: -30°C~45°C  
Color Rendering Index: ≥75RA  
Power Supply: Built In  
Light Base: E27/E26  
LED Lifespan: ≥10,000 Hours

LS-OG30W

LS-OG100W

**Product Details:**

Certification: CE/FCC/ROHS  
LED Type: COB  
Power Consumption: 30W 50W 80W 100W  
Input Voltage: AC85-265V  
Beam Angle: 120 Degree  
Color Temperature: 3000±200K; 6000±500K  
Luminous Flux: 90-100LM/W  
Working Temperature: -30°C~45°C  
Color Rendering Index: ≥75RA  
Power Supply: Built In  
Light Base: Hang  
LED Lifespan: ≥10,000 Hours

LS-ID7W

LS-ID10W

LS-ID5W

LS-ID15W

**Product Details:**

Certification: CE/FCC/ROHS  
LED Type: 5630SMD/High Power 1W  
Power Consumption: 3W 5W 7W 9W 12W  
Input Voltage: AC85-265V  
Beam Angle: 120 Degree  
Color Temperature: 3000±200K; 6000±500K  
Luminous Flux: 90-100LM/W  
Working Temperature: -30°C~45°C  
Color Rendering Index: ≥75RA  
Power Supply: Built Out  
Light Base: Embed  
LED Lifespan: ≥10,000 Hours

**Product Details:**

Certification: CE/FCC/ROHS  
LED Type: High Power 1W  
Power Consumption: 3W 4W 6W  
Input Voltage: AC85-265V / DC12V  
Beam Angle: 30/60Degree  
Color Temperature: 3000±200K; 6000±500K  
Luminous Flux: 80LM/W  
Working Temperature: -30°C~45°C  
Color Rendering Index: ≥75RA  
Power Supply: Built In  
Light Base: E27/E26/MR16/GU10  
LED Lifespan: ≥10,000 Hours

# LINSO GLOBAL

## Our service

With the advantages of high quality R&D team, manufacturing and service, more than 5,000 customers have chosen Linso to work together in the worldwide.

- Linso has the service station and spare parts stock in many places, free to offer the technical support advice and software upgrade. Linso has technical support center in Australia, Spain, UK, America, Brazil, Qatar, The Philippines which can cover global customers to response instantly and provide support service as the latest time.
- Provide with the same warranty period hotline contact and quick response service
- About the system maintenance and system upgrades, we only collect the appropriate materials costs with free labor costs.
- After the warranty period, all required spare parts will be collected at only the cost.
- Free supply the installation and debugging diagram. Also other technical information, training materials, installation manual, and maintenance manual are available too.
- For any major events, Linso can send the technical personnel onsite and keep the led screen work well.
- Actively communicate with the clients on a regular time and regularly do the quality inspection.
