# COMMUNITY

AS ONE OF THREE BUSINESSES OPERATING UNDER THE WORKGROUP BANNER, RECRUITMENT SELECT IS MAKING A POSITIVE LONG-TERM SOCIAL IMPACT ACROSS NORTH EAST VICTORIA AND THE BORDER REGION.

The Workgroup is an innovative social enterprise reinvesting surplus into regional communities through the provision of employment programs delivered by Worktrainers. These programs are either self funded or are run in partnership with like-minded organisations.

One such program is Geared 4 Careers, where Worktrainers staff work alongside local students supporting them to remain and succeed in school, find part-time after school and holiday work and plan for a positive career path.

The program currently has 539 participants from 11 local schools and this year over 50%

of those participants over 15 years have found part-time afterschool work and 93% successfully transitioned from Year 12 to work or tertiary education.

We believe our innovative programs have the ability to transform our regional communities over time through increased participation in the local economies as valued employees and consumers.

Using Recruitment Selects services provides you with a competitive advantage as well as the knowledge you are supporting your local community.
