

2011 Public Training Schedule

In a fast-paced and volatile economy business results are driven by efficient project execution. However with project failure rates at a 10 year high, a significant gap has become evident between the skills of Project Managers and project requirements.

Organisations gain competitive advantage when they are able to develop their Project Managers to have the appropriate skills and knowledge and match those capabilities with the needs of the organisation.

Australia's Project Management Specialist

PM-Partners group has helped Australian organisations achieve better business outcomes for 15 years across all industries and company profiles.

We are Australia's most highly certified project management specialist. Our talented team of experienced consultants, Project Managers and facilitators work with organisations throughout Australia, Asia, Europe and the USA managing over 300 client engagements each year.

This industry leading experience has lead to the development of our professional development solutions which will advance you and your team in the art and science of project management.
