

BLOCKED DRAINS

A blocked drain can be a serious matter for your home or workplace. A poorly functioning sewerage system can cause a range of unwanted problems.

These include:

- Blocked toilets and sinks
- Negative health effects on occupants
- Foul smelling environment
- Increased bacterial and germ presence
- Breeding ground for disease causing insects like mosquitos
- Potential flooding during rainy seasons

Here at Pure Plumbing Professionals, our blocked drain services in Sydney are top notch because our plumbers use the latest technology and best quality products available on the market. With our services you get a free drain camera inspection!

For drainage services we offer:

- Free CCTV camera with every blocked drain
- High pressure water jetting
- Sewer and stormwater repairs and replacements

We have extensive experience dealing with all kinds of drainage and sewer systems. Our plumbers are fully licensed and qualified to tackle all blocked drain situations. Don't risk a build-up of grease, hair, food or scum! Our Sydney-based team will guarantee that your drainage system is clean, clear and fit for service. You can trust our plumbers to save you money in the long run, so if you're worried about your drain, give us a call today.
