

Express Plumbing Proudly Presents Express Plumbing VIP Membership

See for yourself! Why not put us to the test?

7 reasons why you save \$\$\$

1

Service Call Fee is Waived

As a VIP Member you will have the service call fee waived on all work performed during normal work hours - Monday to Friday

2

Assured Price Protection

Save up to 15% off all rates

3

Priority

Your membership plan increases your plumbing's reliability, but should you need emergency service, your VIP membership entitles your job to be prioritized.

4

Service When You Need It

Problems only seem to happen at the most inconvenient times. We will always be available to help you in an emergency.

5

Peace of Mind

Your home is possibly your biggest investment; why not ensure your plumbing system is maintained & running smoothly. In most cases we can prevent costly breakdown & emergency call outs by detecting a problem early. This leads to extended equipment life.

6

Periodic Inspections

At your option, we will perform one FREE inspection and safety check. Potential problems are spotted before they cause trouble. That alone saves you money. If during the inspection, we find any repairs need to be done, they will be offered to you that day for the special low add-on price.

7

You Save Money

Your membership plan SAVES you MONEY, carrying out regular routine maintenance is by far the best way to safeguard your biggest investment.

What We Will Do At The Periodic Inspection:

During the term of the 12 month VIP Membership you may contact us to set up a convenient time for us to come to your home and perform your plumbing safety inspection.

The Following Checks Will Be Carried Out:

1. Safety Check Your Home

Your qualified plumber will thoroughly inspect your plumbing system. Your gas & water control valves throughout your home will be checked to ensure that they will operate in case of an emergency. Gas connectors and valves will be inspected visually as well as the exposed piping. You will be shown where your emergency water shut-off valves are located and where your emergency gas shut off is.

2. Gas

Your qualified plumber will inspect all gas appliances including the hot water service and all gas heaters. We will check they are in good condition. We will conduct carbon monoxide safety tests on all appliances.

3. Taps, Toilets and Water Pressure

Your service technician will check all the taps & toilets in your home for correct operation. We will visually check for correct operation for efficient water use. Your service technician will inspect the toilet bowl and cistern for any leaks and proper flushing.
