Taranto Maison Recruitment

Finding the right staff for you, in simple terms begins and ends with Taranto Maison Recruitment. It's a bit like panning for gold. Firstly we arrive at your company for an on-site briefing, to give us the capacity of understanding your business. It's an insightful opportunity of getting to know your team, the environment our candidate will be working in and importantly to focus on you, the employer and your needs.

We understand that time is of the essence and allow you to get on with your business so we can get on with ours to ensure a long and successful outcome for you, your team and the employee. With a fine tooth comb, we then assess qualifications, suitability, personality and check references, to obtain a short list of candidates for the position. This will help us to discover the gold, or in other words the right people to refer for your approval.

We believe in, and have built our success and reputation on this proven recruitment process. Taranto Maison Recruitment is a privately owned company who rely and focus on the client's needs with hard work, dedication, attention to detail, loyalty, teamwork and passion.

*Taranto Maison Recruitment have been able to adequately support our 24 hour business and work with Toll Operations to ensure our labour requirements are met. This has enabled us to manage our peaks and troughs with a degree of consistency and ease. **Toll Logistics***

*Taranto Maison team made the whole recruitment process very easy for us, we received a quality short list within 72 hours of forwarding our brief, complete with thorough reference checks, so we could quickly access the candidates we wanted. **Caspac Pty Ltd***

*Over the past 15 years I have used Taranto Maison Recruitment. I have found them to be thoroughly professional in their approach and very eager to get the best candidate for the role. It is no coincidence that the majority of staff employed as contractors are offered full time employment at South East Water. In my opinion Taranto Maison Recruitment is a very professional and customer friendly employment recruiting business, who I would highly recommend. **South East Water***
