Why do we ask for an inventory?

We want to ensure we know your move inside out and send the right truck with the right equipment. We know it can take time to complete one for us but it will give you peace of mind that your removalist has all the information.

How does access details affect my quote?

The distance from the house to the truck can increase the length of time it takes to load or unload. We may need additional staff. Again by asking a few questions we can take the stress out of your move.
