

## The Best Place to Buy:

- **Timber Venetian Blinds**
- **Timber Vertical Blinds**
- **Plantation Shutters**

Window furnishings are an important part of any interior. Timber Blinds and Plantation Shutters are some of the world's most popular window fashions because they blend perfectly with any design style, ranging from rustic to traditional and from casual to contemporary. Timber Blinds and Plantation Shutters have a charm that instantly adds both warmth and beauty to any room.

Aside from being both elegant and stylish, our Timber Blinds and Plantation Shutters are also very durable and long-lasting. Timber products help to lower energy use in your home by reducing your heating and cooling costs. Timber Blinds and Plantation Shutters look great anywhere, including on bay or corner windows and both sliding and French doors.

No other window furnishing system is as versatile as Timber Blinds and Plantation Shutters for adding control of light, privacy, ventilation and insulation to your home. Wood has an outstanding 'R' rating and our timber products are excellent for keeping the heat out of your home during summer and keeping the warmth in during the cooler months of the year.

The Wood Blinds Factory specialises in custom-made Basswood and Western Red Cedar Blinds, Vertical Blinds and Plantation Shutters. We also offer you the highest quality of products and the best service for an excellent price.

# ***Our range of wood options for your custom-made product...***

## **Western Red Cedar**

In this age of energy concerns, the Western Red Cedars natural cellular structure gives it an insulation value much higher than that of most other woods and far exceeds that of brick or concrete.

Perhaps Western Red Cedars most exceptional value however, is its unrivalled beauty. No man-made material can duplicate Western Red Cedars natural lustre and tones which range from a gorgeous light amber to an earthy, deep honey brown.

These products, paired with a modern UV coating, never need repainting. They are also easy to clean with a simple duster or damp cloth paired with a mild detergent.

Our Western Red Cedar colours come in Light to Medium and Medium to Dark colour options to suit your home.

## **Basswood**

Basswood is not a heavy wood and has amazing dimensional stability. Being light in colour with no resins, the wood happily stains to a wide variety of colours. The grain in Basswood is very fine which gives its products a more uniform and even appearance.

Basswood is also more scratch and dent resistant than Western Red Cedar, which makes it invaluable to families with young children.

Much like Western Red Cedar, Basswood will never need repainting and is very simple to clean due to its smooth, rich surfaces.

Our Basswood products come in a range of colours, including: Cedar Dark, Light Oak, Vivid White and Chalk USA colours.

## **Rustic, PVC, Aluminium & Outdoor**

Our Rustic Timber Blinds are made of slats that are not highly sanded and show tiny saw marks within the wood. Knots are also a strong feature of these blinds. Rustic Timber Blinds are available in the following stains: Statesman Oak, Walnut, Golden Oak, Pecan and Jarrah.

For both Timber Blinds and Plantation Shutters we offer a PVC option. The PVC material has many advantages that wood cannot rival, such as its strong resistance to scratches and it is ideal for wet areas (such as a kitchen or bathroom) as it will not warp with moisture.

We also offer an Outdoor option for those who like Plantation Shutters but are wary of having their shutters constantly exposed to the sun's harsh rays.

## Venetian Blinds

Timber Venetian Blinds are a beautiful way of adding a touch of class to any room. Timber Venetian Blinds are extremely versatile and will always be a beautiful decoration for any home. Timber Venetian Blinds are also very cost effective which gives them true value in the field of window furnishings.

Our Basswood Timber Blinds boast two size options of either 50x3mm or 63x3mm and our Western Red Cedar Timber Blinds come in either 46x3mm or 60x4mm to suit your preference.

Please refer to the previous page for a list of available materials and colours.

## Plantation Shutters

Plantation Shutters are a timeless fixture for your windows and doors. They can provide either a contemporary or classic look and can easily enrich any space. They are excellent for light control, great for insulation and are extremely long lasting. Our Plantation Shutters are extremely popular and it is easy to see why!

Our Plantation Shutters come with a variety of different louver sizes.

Basswood: 63x10mm, 89x10mm and 114x10mm

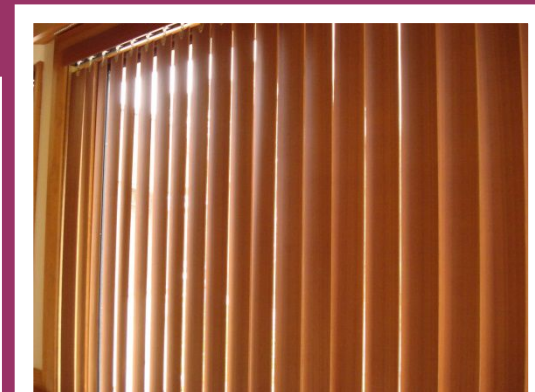

Western Red Cedar: 63x15mm, 89x15mm and 114x15mm

Our shutters come in a range of materials and colours to suit your home.

## Timber Verticals

Our Timber Verticals are made from strips of Basswood laminated together for increased stability and then coated with a U.V. cured coating which imparts a cedar-like grain to the surface finish. Timber Vertical louvers are 89mm wide and 4mm thick. Our Timber Verticals can be made in various configurations.

We supply our Timber Verticals in a light, medium and dark cedar finish as well as white and off-white.

## Sliding Venetian Blinds

Our Sliding Venetian Blinds are unique to our company. They come with tracks for ease of movement. Sliding Venetian Blinds are an excellent product as the Blinds can be pulled up to show the entire view outside. Because Sliding Venetian Blinds offer what most window furnishing cannot, they make for an excellent alternative for those who want to maintain full view out their window, yet still have the full control over their privacy, room lighting and energy usage that comes with owning Venetian Blinds.

## Outdoor Shutters

Our Outdoor Shutters are custom made from pine with a sanded finish. Ready for you to stain or paint. You can also simply leave them to showcase their natural beauty.

A well constructed, durable and solid frame, the panels are 22mm thick with 28x8mm louvers. Suitable for outdoor decoration.

Our Outdoor Shutters add character and charm to any home or building.

These Outdoor Shutter panels can also be used as internal room dividers, either hinged or on sliding tracks.

## About us

The Wood Blinds Factory is a family business based in Orange, in the central-west region of New South Wales.

Hans Reinhardt was a timber kiln builder with a rich knowledge of timber. In 1999, Hans and his family started 'Betta Slat', a company producing and supplying Western Red Cedar slats, Vertical Louvers and Plantation Shutter components to the timber blinds industry.

In 2002, 'Betta Slat' became 'The Wood Blinds Factory' making finished Timber Blinds and Timber Verticals.

Now, The Wood Blinds Factory is committed to supplying the highest quality products at a competitive price, while also providing excellent customer service.
