Keeping your memories safe

The future in media storage

How does it Work?

You

Dig out your old film, tapes or DVDs and either drop them into us or post them to the address below. Remember to make sure you mail them by **REGISTERED** post, care of:

Cloud10. 1/2 Chiltern Rd Willoughby NSW 2068

Us

Once we receive your media we'll check its condition. If there's any problems due to deterioration we'll give you a call. We then capture your media and upload it to your personal, secure Cloud10 web page. We know how valuable this stuff is to you so we only use the best equipment available

You

Send us some money. At this stage we only accept the following terms of payment: Electronic transfer, cheque, money order or cash

Us

We send you a link and password which gives you access to your Cloud10 web page. We also store your files on a separate hard drive. That means your precious memories are backed up in at least 3 different places.

You

Click on the link in the email we send you, type in the password & watch your life flash before your eyes. Send the link and password to your friends and family. As long as you have access to a fast enough internet connection (ie. not dial up) everyone will be happy
