- Band Sawing
- Coating - powder coating, electro plating, galvanising and spray painting
- Rotary axis cutting
- Drafting and design

ONLINE LASER

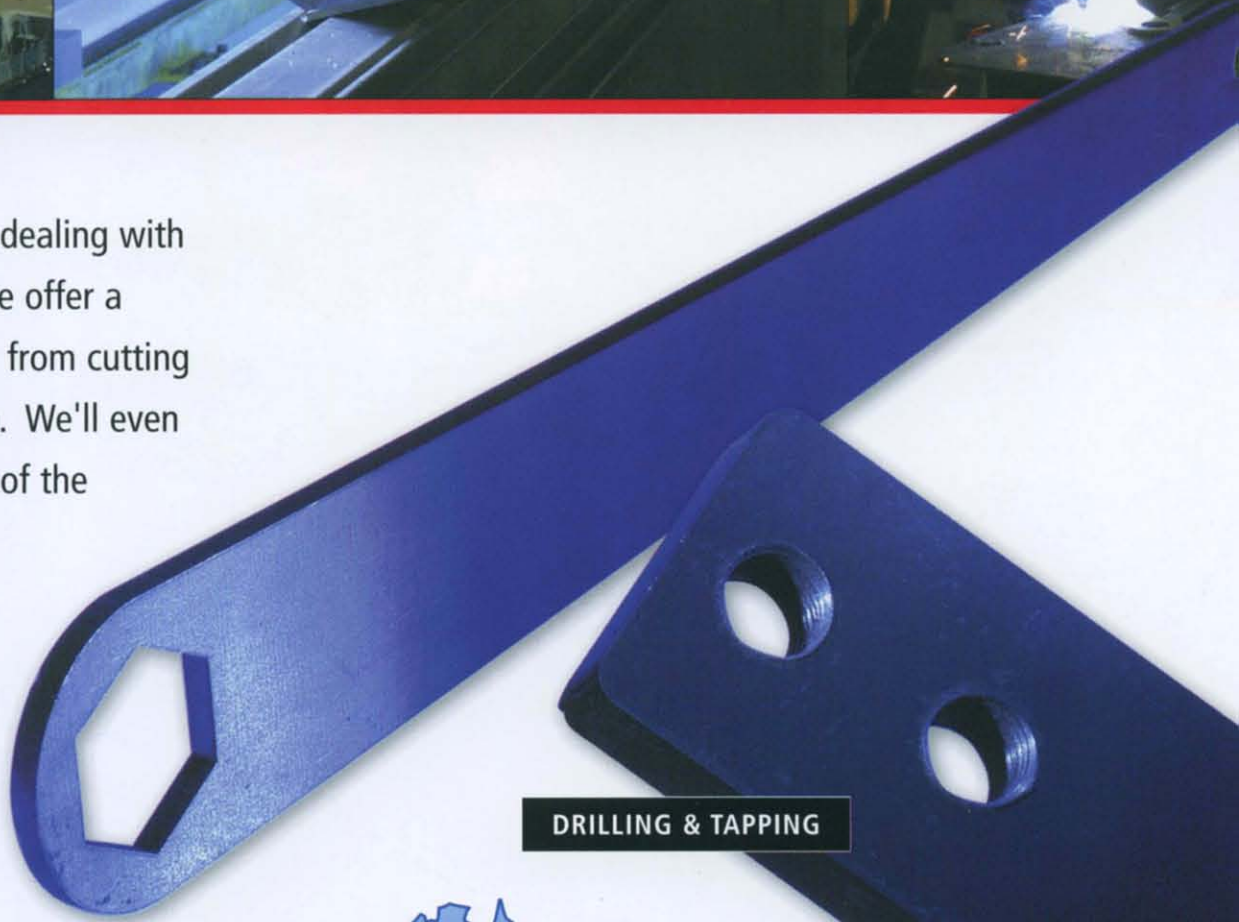

Online Laser is one of just a few Australian companies using the Bystronic 5.2 kilowatt laser cutter, which cuts up to 20mm mild steel.

WELDING & FABRICATION

Service

The difference in dealing with Online Laser is we offer a complete service, from cutting to brake pressing. We'll even organise coating of the finished product.

DRILLING & TAPPING

AUSTRALIA WIDE SERVICE

Delivery

Online Laser will manufacture, pack and deliver your product right to your doorstep, with a commitment to meet your deadline everytime. That's a major benefit over our competitors and one of the reasons we're a leader within the steel industry.

Australia Wide Service

Our service commitment is upheld Australia-wide. From Bairnsdale to Brisbane, Albury to Albany, wherever you're situated, a great service and superior product may be much closer than you expect.

The Company

A family-owned company, Online Laser has provided services to steel manufacturers and fabricators since 1998. Due to uncompromising quality and efficient service, the business has continued to grow, developing a network of clients throughout the country.

DRAFTING & DESIGN

As technologies progress, so to do our capabilities, enabling us to meet steel industry demands now and well into the future.
