*Give us a call, we maybe able to*

*help you!*

## WHY HIRE A CAGE YOU ASK?

After a major surgery such as a cruciate repair, or even a minor surgery such as an spay, you pet needs to be confined to allow them to recover, and prevent them from causing further injury. Even confining you pet to one room, they can still run and jump and cause further injury to themselves.

To save you the hassle of purchasing a cage that you may never use again, The Pet Bedroom offer you affordable cage hire for long or short term use.

Cages can also be set up in the back of vans/utes to also restrain you pet whilst traveling.

Some people also use these cages to house inside pets overnight, so they don't get up to mischief whilst their owners are asleep.

Should you wish to purchase a cage please give us a call so we can negotiate a good deal for you.

Whelping boxes and portable puppy fences (suitable to confine extra large breeds after surgery) are also available upon request.

## Price List

24" Cage—SMALL	\$10.00 Per week
\$50.00 deposit required
