

# Prestige residential lifts.

Unique self supporting tower allowing  
for easy installation into new  
or existing homes.

# *Prestige Lifting Services has a unique type of lift, it's innovative self supporting tower allowing for easy installation into new or existing homes.*

## who are we?

Prestige Lifting Services (PLS as known in the trade) is an Australian company, providing a complete lift design, supply, manufacture and installation services. PLS have been affiliated with the lifting and materials handling industry for over 30 years.

## PLS services

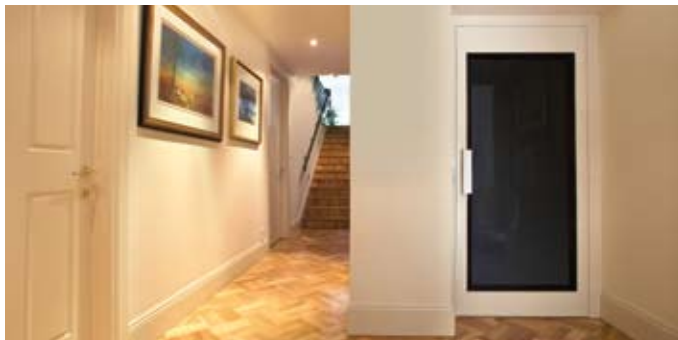

We design, manufacture, refurbish, install and provide scheduled service & maintenance requirements on all domestic Passenger Lifts and Stair Climber. Each project is individually tailored to your specific requirements and needs.

## reliable design

Our lifting systems are super smooth, extremely quiet and reliable in design for the manufacture of:

- Passenger Lifts
- Stair Climbers

We use the latest electronic brake motor control technology, coupled to a precision variable speed drive system that ensures high reliability, quiet and smooth operation for optimum performance. This system is employed through out our range of Passenger Lifts.

## individually tailored

Each contract is tailored to precisely and efficiently meet every clients individual requirements. Aiming to 'Fill the gaps' often found within the Lifting industry PLS pride themselves on exceeding Australian Standards and always looking to improve related products and services.

## packages

Our complete service includes everything from planning and design, in-house manufacturing through to installation, servicing and maintenance.

## finishing & options

PLS offer a range of 22 standard car interior colours as well as stainless steel or even raw MDF to complete the desired look yourself. We also offer steel swing doors, full glass as well as solid core timber doors up to 2640mm high incorporating a concealed door closer.

## 24 hour service

PLS offer a 24 hour breakdown service by highly skilled technicians. A scheduled maintenance plan can be individually tailored to suit all makes and models.

## personal service

We recognise the need to develop and grow within the industry to meet the highest standards and client demands. We are committed to ensuring our customers come first and are therefore available to discuss and advise on any aspect relating to our products and services.
