Our Services:

Small Business

Compliance and systems

Small business

- Assistance in setting up business structures.
- Regular financial reporting, budgets and cash flow projections.
- Administrative and business advice including meetings, minutes and action plans.
- Compliance with Workers Compensation Act 1987, Australian Securities and Investments Commission (ASIC), Superannuation Industry (Supervision) Act 1993 (SIS Act), Office of State Revenue (OSR) and Australian Taxation Office (ATO).

Accounting & Taxation

Tax Planning, Compliance, Superannuation, Tax Returns, Financial Reporting

We assist clients to achieve the most favourable tax framework within the context of cost efficient business and personal taxation planning.

An individual return with effective tax planning can be as little as \$250. If you are a professional or small business owner, you will need much more than a tax return lodgment. Our services include

- Income tax planning.
- Tax compliance: personal tax, company tax, fringe benefits tax, payroll tax and land tax.
- Self-managed superannuation fund administration and audit.
- Project managing investment advice including personal superannuation and insurance needs.
- Preparing financial reports for non-reporting entities to submit to bankers and financiers.

- Electronic taxation lodgment service.

How we deliver: Personalised attention

- We meet you at our office or at your request, on your premises.
- We endeavour to answer all telephone calls and emails as they are received; if we are with a client, we will return your call within the day.
- Obviously if your need is urgent, we respond accordingly.
- We encourage email as a medium of communication.
- All correspondence with statutory bodies (ATO, ASIC, SIS, and OSR) is copied and sent to you with the appropriate instructions.
