Risk Protection Services -All About Us

General Insurance Broker

For a Free Comparison:

Risk Protection Services (RPS) is a privately owned company that specialises in looking after our clients' needs. We have a wealth of industry experience across a broad range of areas of financial risk protection.

RPS as a general insurance broker and through our health insurance consultancy, Australian Health Cover Advisors, is well placed to provide a complete package in looking after all your insurance requirements.

We can provide professional advice on each clients business, assessing their individual risk and exposures and recommending suitable products to cater for those needs.

How Can We Assist?

The true value of an insurance policy occurs at the time of settlement of loss - not at the time of purchase.

At RPS our role is to tailor the best insurance program to suit your needs – buying 'a price' is not always the best policy. Insurance policies have so many components (limitations, conditions, exclusions) that it is difficult for the average person to compare.

You know where we are when you need us – we're not in a call centre our office is easily reached so we can look after our client's interests.
