

## Just Better Care – In Home Care

At [Just Better Care](#), we believe in the benefits of community and the connections that we make together. Everyone has the right to participate in their community, to the extent that they choose. Just Better Care leads Australia in the provision of in-home support, enabling people to live independently at home, maintain their personal and social connections and enjoy a better quality of life.

Every Just Better Care office is owned and operated locally, part of a network of businesses, organisations, services and groups that work together to the advantage of our customers.

We are actively engaged in enhancing our local communities by building local links and developing connections between people.

Each Just Better Care owner also employs and trains their own staff, reflecting the diversity and unique nature of each specific area.

### Services Provided

Just Better Care is an experienced in-home support provider with locations in the ACT, New South Wales, Queensland, Victoria, and Western Australia. All of our caring staff members have a current Federal criminal record check during and all of our offices are ISO 9001 accredited to ensure that all of our systems and processes are best practice so that you can rest assured that all of our staff members will be able to take care of your loved ones the way that they deserve.
