# TOBINFISHTALES

every fish has a story

About us:

TOBINFISHTALES brings you: first class **fish & chips** and **fresh seafood**.

We are the complete chain - we catch it, we cook, we sell it.

We are licenced commercial fishers.

Our family business supports local fishers, local businesses and the local community.

Our seafood products are sustainably sourced.

As PhD qualified fisheries scientists, Andy and Renae know most things

about fish + fishermen + fisheries

and can regale you in a tale or two, should you be interested.

The fishers we buy from are proactive in caring for their workplaces

and many are Reef Guardian Fishers, doing that little bit more

to help protect the Great Barrier Reef.

If you'd like to know more about your seafood, well ...

every fish has a story at **TOBINFISHTALES**.
