We offer *only* the best because:

We are committed to customer service excellence

While we are a high quality transcription company first and foremost, we are equally committed to serving our clients with positive, intelligent, efficient and professional customer care

We are global, yet local

After uploading an audio file from any location, clients receive a quote in their local currency and their sound files are transcribed to deadline in their local time zone, making this a local experience from a global company

We employ only the best

We accept between 2 to 5 applicants out of every 1,000 applications monthly, and these few must undergo rigorous training. Our transcribers are highly qualified, highly capable and highly experienced with various accents

We have a unique operating system

Our unique and highly advanced proprietary workflow operating system is one-of-a-kind, allowing us to keep careful track of all client uploads, deadlines and special instructions
