What our clients say

The service is fantastic and has brilliant features that I didn't have before with my old cuttings service. I can change the tracking folders easily any day, I can check cuttings every day if I want and I only pay for one clip instead of paying for pages. Genius! I am so happy that I changed onto Slice and it is really helping my business to be more productive and cost efficient. **Gina Pearce, Savage PR**

Slice has opened the media monitoring doors to much smaller companies who would not have had the opportunity to access this service. At Tango PR, we are able to supplement our major monitoring service, with a low cost, streamlined and effective provider for our smaller accounts. It is a win-win situation for the company and our clients.

Caroline Cottrill, Tango PR

Moving to Slice has allowed us to substantially reduce our monitoring costs but allows us full digital access to clippings.

Peter Cocks, Volunteering Australia

It's simple to use, there's no contract so I can choose when to use Slice and which search folders are active.

Michaela Lauren, Environmental Biotechnology CRC

On a recent trip back to the UK, I simply logged onto my account, found a clipping I had generated for a client in the Australian newspaper and alerted the client via email – time difference issues averted! Slice Media provides a fantastic service and I wouldn't hesitate to recommend them to any PR professional.
