PATIOS - DECKS - CARPORTS - BLINDS - 3D DESIGN

## OUR STORY

Lead designer Dennis Maude and the AdaptIt Cairns team create **patios, decks, carports and enclosures** that upgrade your lifestyle and can add value to your property.

AdaptIt Cairns projects are created in close consultation with you. At the end of the day, it's your vision and it's our job to make it happen. Our structures are designed to help your family make the most of North Queensland's sea breezes and balmy nights – and to guard against our wild weather and high temps.

### How are we different?

AdaptIt 3D modelling lets you see what's possible and leaves nothing to chance. For a clear picture of what's in store, 3D modelling lets you preview your deck, patio or carport before you build. You can experience how it will look and even see where the shadows will fall throughout the year.

## WHY WORK WITH US?

### We look at the big picture

In the design phase, AdaptIt Cairns takes into account adjacent buildings, natural surroundings and North Queensland conditions for a seamless structure that's perfectly integrated.

### We handle the hassle & keep you in the loop

We deal with council approvals and the red tape associated with renovating. This keeps things running smoothly and saves you the headache. Naturally we let you know what's happening as things progress.

### We use the best tradies in the business

AdaptIt Cairns' building team is led by a qualified senior builder and second-generation tradesman. Adopting the philosophy 'Do it once, do it right' AdaptIt Cairns' top-notch builders and craftsmen take pride in each and every job.

### We use the finest materials under the sun

AdaptIt Cairns is an authorised dealer of Australian-made Stratco Outback Patios.

## PRODUCTS & PROJECTS

### Patios

Open your home to the outdoors with a custom patio designed and built to suit your lifestyle and the North Queensland weather all year round.

### Decks

Entertain your friends or enjoy the company of your family on a new outdoor timber deck. AdaptIt Cairns are expert builders and designers of stylish and functional outdoor decks and proudly offer a range of timber decking solutions including the OneSteel DuraGal Flooring System®.

### Carports

Sturdy, stylish protection for your car that does your house proud. AdaptIt Cairns carports are built using Colorbond steel to withstand life in the tropics.

### Blinds

When the North Queensland sun gets too much, a little window dressing goes a long way. Explore our range of indoor and outdoor screens, blinds, shutters and awnings in on-trend colours, fabrics and finishes.

*We back ourselves and you*

AdaptIt Cairns projects offer:

- ✓ A 6.5-year structural warranty
- ✓ A 1-year workmanship guarantee
- ✓ QBCC Home Warranty Insurance for jobs over \$3300
- ✓ Stratco's 15-year manufacturer warranty
