

# *how does it work / benefits*

**Concrete Taxi gives you the flexibility to order the exact amount of concrete that you need, when you need it and where you want it.**

Concrete Taxi's unique service is highly suitable for concrete amounts of under 2 cubic metres. Our ability to manufacture concrete on site in accurate volumes allows us to provide a more competitive solution that can be delivered 24 hours a day, 7 days a week. Should a project need more concrete than ordered, Concrete Taxi can provide an additional supply per wheelbarrow load instantly, on site.

Concrete Taxi's patented delivery system has been installed on medium sized trucks that allow us to reach areas where larger concrete trucks cannot.

The ability to deliver an accurate supply of concrete means less mess and cleanup time after the job is complete.

Concrete Taxi now services the domestic and commercial market across Australia. Our customer base includes home renovation specialists, building and construction companies together with other companies looking for fast and small amounts of concrete for their work environment.

Combining the savings on delivering an exact volume of concrete required for the project, the convenience of delivery day or night and the ability to reach some of the most difficult or restricted work environments - Concrete Taxi provides the most efficient solution for concrete supply in today's marketplace.

Our friendly booking team are available via a national 1300 number from 7.00am to 6.00pm (EST), seven days a week.
