Laco International Pty Ltd

We distribute in Australia, New Zealand and Pacific Islands industrial machinery for food and chemical industry.

We also provide consultancy, design, project management up to the installation of complete turnkey production lines together with all associated services.

Established in 1994 Laco International has gained over 18 years of extensive industry knowledge and expertise.

Laco mainly covers two fields of operation: “**Food & Bakery division**” and “**Liquid & Filling division**”.

Food & Bakery division:

Laco International *Food & Bakery division*, established in **1994**, has been extremely successful in providing turn-key solutions, from specifying and integrating replacement equipment into existing production lines, to designing and installing complete, new production lines or entirely new factories.

We are extremely knowledgeable on the industrial processes for the production and packing of a very wide variety of products such as *cakes, fairy cakes, muffins, tarts or pies, injected cakes, sponge cakes, swiss rolls, biscuits, cookies, crackers, pizza* as well as *chocolate and confectionary products*.

Liquid & Filling division:

Laco International Liquid & Filling division, established in **2011**, offers a huge range of Italian industry leading machinery for the filling, capping and packing of any liquid, thick and powder products. The main groups of products treated are:

LIQUID: *milk and dairy products, edible oil, orange juice*, all kind of *liquid food, vinegar, wine, liquors, alcohols, syrups, jam, home care, personal care, chemicals (corrosive), petrochemical, pharmaceuticals (aseptic filling), motor oil, paints, solvents, dyes, glues, putty* and *special applications*.

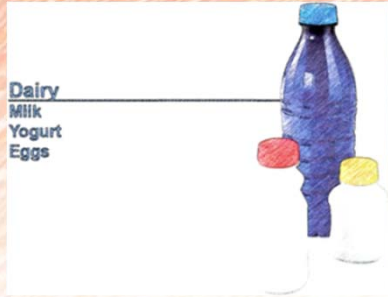

POWDER and SOLID: *laundry and dishwashing detergents, food, pet food, chemicals, agriculture, powder tablets, liquid and powder pouches*.
