If you've ever looked at your financial statements closely, you'll notice there are a range of fees and commissions that are charged.

These are often compulsory fees and commissions that are paid to financial advisers, brokers and agents that may have originally signed you up to that product and are still getting paid by the fees and commission that generate from your account, every year!

What can we do for you?

We'll hunt down hidden fees and commissions from your financial products so that:

- You won't pay unnecessary fees and commissions any longer
- Access your own money and put it back into your pocket
- Make extra money, every year for referring friends
- Give you a cash-back cheque every year

How much could you be getting back each year from your Superannuation, Pension, Mortgage, Investments or Insurance?

How much does it cost?

The maximum retained by YourShare is \$295 pa. For each dollar of trailing commissions collected YourShare retains 50% of the first \$590 and rebates 100% over and above that.
